

SENSATIONAL AFTERMATH OF FIRE

2 Held For Murder and Arson as Result Of Brooklyn Blaze

Two Men Held Responsible for Dwelling Fire Which Cost the Lives of Six Persons—Ill Feeling Existed Between One of Men Held and One of Victims—Confession Is Made by One Which Other Denies.

(By The Associated Press.)
NEW YORK, Oct. 18.—A sensational aftermath of a fire which early last Monday destroyed a Brooklyn home and caused the death of six persons came today with the arrest of William A. Ford, a real estate broker and son-in-law of one of the fire victims, and Raymond Anderson, on charges of murder and arson.

A third man, James R. Lynch, accountant, was held as a witness and a fourth is being sought as an accomplice.

Ford is the son-in-law of George Keim, playwright, whose death in the fire came on the eve of the production of his first play, accepted after years of endeavor.

Fire Marshal Brophy declared he had obtained a confession from Anderson. Ill feeling between Keim and his son-in-law was said to have existed for several years, according to Brophy, and Keim, it was understood, was to have appeared in court to testify against Ford in an assault case the day of his death.

Anderson, according to Brophy, accused Ford and the unidentified man, also a stranger to him, of having driven to Keim's home early Monday morning and had spent the night there, according to Brophy, and with having fired the house. Keim, three women and two other men perished in the flames.

Ford and his father-in-law, formerly partners in a Manhattan theatrical enterprise, were said to have broken business relations after a quarrel several years ago.

Brophy said Anderson told him that Ford had on a previous occasion asked him to fire the Keim home and that he had several times refused to do so. Anderson said he had refused to take part in the arson plot beyond driving Ford's car. He said Ford accused him of being "yellow."

"I was nervous and almost crazy when I saw the flames rising from the windows of the car in front of the Keim home," he is alleged to have said. "I began to drive away from Ford and the other man had been about ten minutes but they rushed after me and jumped on the running board. Ford upbraided me, saying I was a fool and that I could have picked up a nice piece of change."

Ford, Brophy said, denied Anderson's story.

Officers who went to arrest him had to enter the house through a window and found Ford huddled in bed with the blankets pulled over his head. He screamed hysterically on seeing the police, they said. A newspaper clipping of an account of the death fire was found in Ford's pocket, Brophy said.

Three Bodies of Naval Disaster Washed Ashore

(By The Associated Press.)
SANTA BARBARA, Calif., Oct. 18.—The bodies of three additional victims of the naval disaster at Hondo, 15 miles north of Santa Barbara, yesterday near the hulks of the destroyers. Identification was impossible. An inquest will be held today. The total of bodies recovered is twenty-three, and the bodies of the whole of the destroyers went ashore.

—Rev. O. R. Nowlin, pastor of Cabell Street church, left yesterday for Richmond to attend the annual Methodist conference.

PETERSBURG FIRE LOSS ESTIMATED AT \$200,000

(By The Associated Press.)
PETERSBURG, Va., Oct. 18.—Check early this morning shows a loss of nearly \$200,000 suffered when fire destroyed the plant of the Petersburg Shook company in Pocahontas last night.

Fully 12,000 people watched the conflagration from close range. It was the most spectacular fire witnessed in Petersburg in many years. Burning pine lumber, shocked and the flames shot like flames from structures sending flames high into the air and illuminating the country for many miles around.

The flames originating in the planing room of the large shell like wooden structure, raged from 7:15 o'clock until nearly midnight, with the whole of the Petersburg fire department struggling to check its advance. The fire was still smoldering this morning.

A 200 foot stage shed and three rows of lumber in piles ranging from six to 15 feet high, about 200 feet long, were completely destroyed, as were 15 box cars loaded with lumber, tobacco and peanuts, sand and gravel standing on sidings in the Atlantic Coast Line Railway yards.

From the beginning the fire had a dangerous aspect. The Standard Oil

LLOYD GEORGE ADDRESSES 10,000

SEVERAL SLAIN IN FOOD RIOT

(By The Associated Press.)
MANNHEIM, Germany, Oct. 18.—From six to eight persons are reported dead and many others injured as a result of yesterday's food riot in Mannheim during which many clashes occurred between the mob and the police. The rioting was the outgrowth of the high prices of food resulting in a general strike and cutting off of water, gas, electric and street car service. A state of siege was declared by the police last night and the streets were cleared at 9 o'clock.

Mellon Calls Debt Commission To Meet Saturday

(By The Associated Press.)
WASHINGTON, Oct. 18.—Secretary Mellon today called the debt commission to meet Saturday, October 20, but declined to disclose what subjects would be considered aside from the commission's annual reports.

Asked whether the commission would consider the sending of a "first" of the month statement to the debtors, Mr. Mellon said he had given no thought to that phase of the situation. He recalled that one communication of that nature had been sent to all of the powers more than a year ago and added that he thought it was time for the commission to meet and discuss whatever subjects its members may call up.

Coincident with the call for the Saturday meeting, it was made known at the Treasury that a careful survey had been made of the financial status of all of the foreign powers. The only official comment was that the commission wanted all the available facts and had been gathering them piecemeal since it authorized the passage of the debt funding act.

Cleveland No Longer Seeks The Convention

(By The Associated Press.)
NEW YORK, Oct. 18.—Cleveland has withdrawn as a contender for the next Democratic national convention, according to John R. Young, secretary of the committee which is seeking to bring the gathering to New York. Chicago withdrew several weeks ago. Mr. Young said, declaring the two withdrawals appeared to leave the city alone in the field as a contender.

CANAL RUNNING DRY

(By The Associated Press.)
NORFOLK, Va., Oct. 18.—Owing to the drought, which has lowered the water level of Lake Drummond, feeder for the Dismal Swamp canal, the canal will be open to traffic only three days in the week, according to officials.

A statement issued by the Lake Drummond Canal and Water company is to the effect that during the continuance of the existing drought and until further notice the canal will be open to traffic beyond the locks Monday, Wednesday and Fridays.

GORE PROVES FATAL

(By The Associated Press.)
DOWNTOWN, Pa., Oct. 18.—George Kerr, a member of the firm of the Kerr Paper Mills Company, here, died yesterday from injuries received when he was gored by a bull two days ago.

Auxiliary Delegates At Dabney House; Business Session Tonight

Delegates to the annual meeting of the Woman's Auxiliary of the Diocese of Southern Virginia, formally welcomed to Danville at Epiphany church last night, left this morning in automobiles for Petersburg, where they are to spend the day, visiting Dabney Community House, one of the most progressive missions maintained by the Diocese. The fifty or more churchwomen here from all parts of Virginia, who are the members of the Auxiliary, which was administered by Bishop Beverly D. Tucker and Bishop-Coadjutor A. C. Thomson after which they left the church for Petersburg.

The morning and early afternoon will be spent at Dabney House where the work of the mission will be observed. The cars will leave Petersburg in time to reach Chatham by supper, this to be served at Chatham Episcopal Institute.

The first business meeting of the Auxiliary will be held at nine o'clock at Epiphany church when the reports of the officers will be presented after which Rev. Noble C. Powell, rector of St. Paul's church, University of Virginia, will deliver an address on "The Church's Responsibility to the World."

The reports to be heard tonight will be from the president of the Auxiliary, Mrs. Frank W. Harding of Hampton, the first vice president, Mrs. Charles R. Grandy, the second vice president, Miss M. A. Vaden of Richmond, the secretary, Mrs. Frank H. Holladay of Suffolk, the treasurer, Mrs. Shirley Carter of Shirley, and the educational secretary, Mrs. William E. Meade of Norfolk.

Tomorrow will be taken up with further reports of clubs and societies of the Diocese. Bishop Thomson also will deliver an address in the morning. The afternoon session provides for the election of officers and the election of delegates to the Synod. While at night, T. M. Matthews will present the church programme and Rev. J. H. Lloyd will speak on Japan.

The opening service last night included Evensong with the vested choir in attendance. Welcoming ad-

NIECE OF LADY ASTOR TO MARRY

(By The Associated Press.)
NEW YORK, Oct. 18.—Miss Alice Perkins, daughter of the eldest of the five famous Langhorne sisters of Virginia, niece of Lady Astor, is to marry Reginald Wynn, third son of late Lord and Lady St. Oswald of Nostell, Yorkshire, England. The engagement was announced today by Miss Perkins' sister, Mrs. A. Ronald Tree of this city.

The Langhorne sister are Viscountess Astor, Mrs. Charles Dana Gibson, of New York; Mrs. Paul Phillips and Mrs. Robert Brand of London, and Miss Perkins' mother, Ms. T. M. Perkins, who died in Richmond, in 1914.

The Honorable Reginald Wynn was born in 1899 and served through the war as a lieutenant of the fifth grenadier guards.

New Sunday School For Presbyterian Church Discussed

That a committee of the First Presbyterian church has been appointed to make a report relative to the advisability of building a new Sunday school building has been known today. W. D. Overby is chairman of the committee which will go to the project and which will report its findings within the next few days. Mr. Overby was communicated with by telephone this afternoon and he said that the project had not reached what could be considered a sufficiently definite shape to be discussed. The whole matter has not yet gone beyond the stage of discussion and the duty of the committee is to make a report on the project. A congregational meeting was held last night when the church decided to postpone it until such time that the special committee is prepared to make a report which will be awaited with considerable interest.

In discussing the matter this afternoon, it was reported that the church emphasized the fact that while serious consideration was being given the project it was still in purely formative stage and that it would be sometime before anything definite would be arrived at.

Drought Curtails Power Program In The Carolinas

(By The Associated Press.)
CHARLOTTE, N. C., Oct. 18.—A drastic program of power curtailment effective Monday and involving manufacturing enterprises in the Carolinas, was announced today at headquarters here of the Southern Power company, conditioned on failure of rainfall in the mountain to refill reservoirs now nearly empty.

KILLED BY TRAIN

(Special to The Bee.)
ROCKY MOUNT, Va., Oct. 18.—John D. Frahn, a tinner of this place, was killed when he was struck by a freight train on the Norfolk and Western near here. His body was terribly mangled part of his remains being found half a mile from the scene of the accident.

PLAY AT CHAPEL HILL

(By The Associated Press.)
CHAPEL HILL, N. C., Oct. 18.—The freshmen eleven of the University of North Carolina will meet the Eastern Military Academy football team in a gridiron battle here next Saturday afternoon.

TOWN TOPICS

Boy Scout activity in Danville is taking on new life especially since it became known that provision for the organization is to be made for the organization in the forthcoming community chest drive. The sum of \$2,000 is set aside for the further promotion of the movement. Scoutmaster Walter Waddill announced today that Troop No. 4 of the First Baptist church will hold its weekly meeting in the church Sunday School room on Friday night at 7:30 o'clock.

The city health department is preparing for whooping cough. With the advent of colder weather this malady usually becomes prevalent. Three cases have already been reported at the health office. This year the city nurses will be given a supply of brandy for armists, those bearing the words "whooping cough" inscribed in red on white cloth and which will be worn by the children. Doctors are said to believe that whooping cough is more readily overcome by remaining as much as possible out of doors. It is said that by remaining about five feet from any child with whooping cough there is little likelihood of contracting this spray borne disease. The armlets will serve as a warning to children who are immune to remain at safe range from those who have the malady.

The Danville Kiwanis club will be well represented at the fifth annual convention of the Capital district Kiwanis international which will open in Baltimore on Friday morning lasting through Saturday. The Danville representation, most of whom will leave on train No. 32 tonight will be composed of Herbert Martin, president, C. G. Evans, Bryant Heard, J. Speer, W. King Anderson and David P. Garvin. Frank, lieutenant governor of the district will go from Richmond where he is now attending the Virginia Methodist conference, direct to Baltimore and after the convention will return to the conference. Mr. Talbot is slated to preside at the conference of club presidents and vice presidents on Friday afternoon and to deliver the address of the evening. He is slated for a promotion, Edmund P. Arras, international president, is to make the keynote address at the convention which will be along constructive lines.

This evening at 7:30 a joint social will be given at the First Baptist church, by the Senior B. E. U. and the Berean Bible Class. Every member and prospective member are urged to be present. A pleasant evening is in store for all who attend.

John Wingo, a white man charged with assault and battery robbery in connection with the recent attack on Napoleon Wilson, a negro taxi driver, was given a hearing before Magistrate R. S. Pitts this morning at Schofield and was remanded to the city jail to await action by the Pittsylvania Circuit court grand jury which meets November 19th. Wingo was again identified by Wilson as one of two men who entered his car and hired him to drive to a farm out in the country. James Dorcas, another man, also identified Wingo as the man he saw step into the car. Wingo took the stand and professed ignorance of the whole proceeding and denied that he was guilty as charged. Wingo has admitted, according to Deputy Sheriff W. Rice, that he is from Louisville, W. Va., and that he is wanted there for breaking jail. It is said he was given a term for drawing a revolver on a man of that place.

The Junior Department of Mount Vernon school will have a winter social on Saturday afternoon and all members are requested to be at the Sunday school rooms at 2:30 o'clock.

Rev. J. Wiley Bledsoe will preach at Mount Vernon church on Sunday morning at the 11 o'clock services.

The Schofield band under the direction and leadership of Professor Joseph Vezette, on Sunday afternoon at the new Schofield band stand, will render a special program, which will include the soloists, Mrs. Allen T. Kabe, choir leader of Mount Vernon church. The program will begin at 3 o'clock and continue for two hours.

Vital statistics for the quarter ending September 30th issued by the health department show that the death rate in this community died during that period while the death of 13 non-residents was noted. During the same period, a summary of the statement shows 212 births were recorded.

The volume of sales on the local auction house floor today was about the same as yesterday, the offerings being disposed of before dinner time. No price change was noted on the poorer grades though on the medium and better grades there was some improvement.

It will cost approximately \$300 to make the necessary repairs to the tower of the courthouse, according to the city engineer who with a contractor made an examination of the tower yesterday. Part of the \$300 structure is described as being in bad condition and much of the deterioration has been found to have resulted from a point of perforation. The repair work will not be done until special authorization has been given by the council.

EGYPTIAN COTTON CROP 53 PER CENT OF NORMAL

(By The Associated Press.)
WASHINGTON, Oct. 18.—The Egyptian cotton crop is 53 per cent of normal, as compared with 74 per cent at this time last year, the international institute of agriculture at Rome estimated in a cable today to the Department of Agriculture. Pink Boll worms are general, the cable added, but the damage is not as serious as it was last year.

German Reparations Most Serious Factor In Europe's Troubles

LATE NEWS

(By The Associated Press.)
NEW YORK, Oct. 18.—United States Attorney Haywood today filed 54 injunction and common nuisance suits in federal court, under the Volstead act, to close alleged wet saloons, cafes, restaurants and cabarets in this city.

The names of five places were not available this morning as the complaints in the various cases had not been filed. The evidence on which the suits were based was obtained by Assistant United States Attorney John Holley Clark.

(By The Associated Press.)
JASPER, Tenn., Oct. 18.—James Thompson today was found guilty of the murder several months ago of Dr. O. P. McNabb at Whitwell, and was sentenced to 21 years imprisonment. The case was given to the jury late yesterday. Thompson based his defense on the contention that he shot in self defense after he had caused the murder of his wife, and was charged with the murder of McNabb.

(By The Associated Press.)
TALLAHASSEE, Fla., Oct. 18.—The Presbyterian Synod of Florida, in the thirty-second annual session here, voted today to recommend consolidation of the Columbia, S. C. Theological Seminary with Union Theological Seminary at Richmond, Virginia. The recommendation includes suggestions for the enlargement of the scope of the work of the combined institutions to incorporate an extension department.

(By The Associated Press.)
DUSSELDORF, Oct. 18.—Thirty-eight thousand German railroad men in the occupied area applied for places under the Franco-Belgian railway regime yesterday, it was announced today at the headquarters of the occupying forces here.

(By Chicago Tribune Service.)
BINGHAM, Utah, Oct. 18.—Recue parties in the Utah-Apex Metal Mines declared today they heard tapings apparently from one or more of the men known to be entombed. As a result work is being pushed with renewed vigor.

(By The Associated Press.)
NEW YORK, Oct. 18.—An unidentified fishing smack broke up in a heavy sea off Coney Island today its crew of fifteen men being rescued from small boats by a tug. A number of the fishermen went to the aid of the still afloat and were tossed to the waves. Some of these rescue craft were believed to have foundered.

(By The Associated Press.)
SAN FRANCISCO, Oct. 18.—Opposition to the recognition of Soviet Russia and demand for the annual registration of all aliens in the United States formed the high lights of the American Legion's Americanism committee report submitted to the floor of the convention here today.

Believe Youth Fell Off Bridge Walking In Sleep

(By The Associated Press.)
HARRISBURG, Pa., Oct. 18.—The mysterious death of the death of Braden Cook, Shenandoah county youth, found in a semi-conscious condition under the Southern Railway bridge at Edinburg, 35 miles north of here, remained unsolved today as the body was buried in a cemetery in the western section of the county. Local authorities after two days inquiry inclined to the theory that the youth fell off the bridge while walking in his sleep.

Residents near the bridge found Cook with a fractured skull in a patch of weeds Monday afternoon. He was barely alive and died a few hours later without regaining consciousness.

Cook arrived in Edinburg Sunday night from Ohio enroute to his home at Furnace. He was unable to hire a taxicab that night and registered at a hotel.

ALASKA CELEBRATING

(By The Associated Press.)
FAIRBANKS, Alaska, Oct. 18.—Every county, town and city in Alaska is celebrating Alaska Day in commemoration of the fifty-sixth anniversary of the raising of the American flag at Sitka.

Lutherans In Session Here Discuss Problems Before Virginia Church

The first meeting of the Roanoke Conference of the Lutheran in Synod ever held in Danville was opened last night at the Roanoke Hotel when the Rev. J. H. Lloyd, of Salem, Va., presiding, opened the session with a prayer. The first meeting of the Roanoke Conference of the Lutheran in Synod ever held in Danville was opened last night at the Roanoke Hotel when the Rev. J. H. Lloyd, of Salem, Va., presiding, opened the session with a prayer.

The Synod has no legislative matters before it but will confine itself to an informal discussion of the problems confronting the Lutherans of the Roanoke Conference. There will be no business meetings.

This morning services began at nine o'clock being conducted by Rev. J. D. Utt, of Roanoke, following which Rev. S. C. Ballentine, of Blacksburg, led a discussion on the organization and the duties of the church council. Rev. J. H. Lloyd, of Salem, Va., presiding, opened the session with a prayer.

Rev. J. H. Lloyd, of Salem, Va., presiding, opened the session with a prayer.

TWINS ARE BORN, BOY AND GIRL, THE LAD WITH TEETH

Whatever else can be said for this story it has teeth in it and a dash of the incredible. As usual the male is the inclusive creature. He comes prepared to take a big chunk out of life and if the female of the species grows dangerous he is ready to defend himself. On the other hand it is probably the case that the male, handicapped by nature, is compensated, the purpose being to strike a balance.

The story is that twins, male and female, have descended upon the house of Johnson in Schoolfield, Md. and Mrs. H. W. Johnson, Bishop Avenue, for purposes of identification. The boy baby came into the world with two well developed incisors, the girl will have to "gum it" for a season. Both are lusty infants, though it is said that the male infant makes the most noise gives the most trouble and demands the most attention. The girl infant, being made of sugar and spice and everything nice, has a more equable disposition.

Thus male and female are created—a case of duplicity and duplicity.

Mrs. William B. Hill will leave tomorrow for Concord, N. C., to visit friends.

If Pimples Mar Complexion

Drive Them Off with Stuart's Calcium Wafers—Their Action in the Skin is a Wonder of Accomplishment.

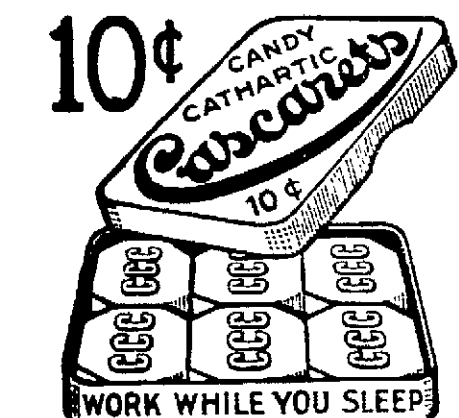

Many girls with a pimply skin do not realize that face creams and such things are merely to protect not to remake the skin. What you must do

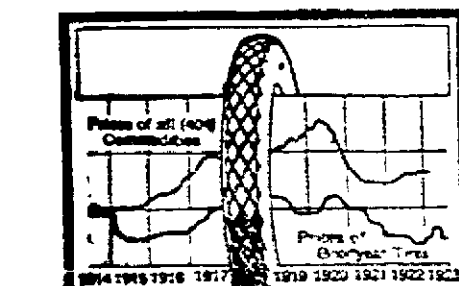

is to supply the skin with its much needed calcium and this you do with Stuart's Calcium Wafers. These go directly into the blood and to the skin to clear away those embarrassing pimples, blackheads and other such blemishes. It is not a round-about way. You get results every minute. You are sure of it in a few hours. They clear the blood, they drive from the system the impurities that cause pimples. The calcium goes to the skin, acts as a tonic, stimulates the tiny nerves, pores, and blood vessels to renewed activity, and lo! before you realize it the skin is peachy, firm, clear and the picture of a sweet rose complexion. Get a 60 cent box today of Stuart's Calcium Wafers in any drug store and you will have a real beauty maker to clear your skin of pimples, redness, roughness and such destroyers of beauty. A free sample package will be sent to you by mail if you will send your name and address to F. A. Stuart Co., 839 Stuart Bldg., Marshall, Mich.—adv.

Best Laxative for Bowels

If Headachy, Bilious, Sick, Constipated

No gripping or inconvenience follows a gentle liver and bowel cleansing with "Cathartic Candy." Sick Headache, Biliousness, Colic, Indigestion and all such distress come by morning. Most harmless laxative for Men, Women and Children—The boxes, 25¢ and 50¢ sizes, any drug store—adv.

FOR many years, Goodyear tire prices have been kept consistently lower than the average price level for all commodities, as you see from the above chart. At the same time, Goodyear quality has been consistently bettered. Today, Goodyear tire prices are lower than in 1914, and Goodyear quality is the highest ever. This is a good time to buy Goodyears.

As Goodyear Service Stations throughout the country recommend the new Goodyear Cords with the tread and back them up with standard.

Bill Morris Was Found Not Guilty

William M. Morris was acquitted yesterday morning in Federal Court in Greenville, S. C., of the charge of transporting a stolen car. Judge H. H. Watkins, hearing the case, directed a verdict of not guilty. As soon as the prosecution had offered all its testimony and rested and the defense had presented any argument, the federal judge directed the "not guilty" verdict.

Morris remained in the city last night accompanied by several witnesses in the case.

The car which Morris was alleged to have transported to Greenville, S. C., and which was at one time in the possession of Duke Frazier, who placed it in storage in Greensboro, N. C. It was said that Morris was commissioned to take the car to South Carolina and sell it.

Morris' attorneys in the case were Judge Walton Brown, of Danville, and Donham and Price, of Greenville. Less than one hour was consumed in the trial. When the state rested its defense counsel felt that no damaging testimony had been offered and they submitted the case without offering any testimony or any argument.

Switchman Dies From Injuries

J. R. Wilson, switchman on the Southern yards here, died last night at 8 o'clock at the General hospital as the result of injuries sustained when he fell between two box cars about 6 o'clock last evening. The accident happened near the city gas works. The car wheel ground off the flesh on Wilson's right leg and his left leg was broken.

The injured man was taken immediately to General hospital, where he died at 8 o'clock, physicians stating that nothing could be done to save his life. Shock and loss of blood caused death.

Wilson was seriously hurt several months ago on the local yards when he was knocked from a box car. He was in the hospital some time from injuries sustained at that time and has only been at work a short while since he left the hospital.

No one saw the accident yesterday and exact details of how Wilson happened to fall under the car wheels are unavailable. Yard Conductor G. H. Rhodes discovered Wilson and secured an ambulance to take him to the hospital.

Mr. Wilson is survived by a widow and several children. He lived on South Main street. Funeral arrangements will be announced later.

RAIN NOW NEEDED BY VA. FARMERS

(By The Associated Press.) RICHMOND, Oct. 17.—According to the semi-monthly report of the state department of agriculture, the work in Virginia has made very good progress during the period of October 1-15th. Although rain is now needed, in some sections, the crop is in good condition. The report says that harvesting of crops is practically completed and seeding, in many sections has already commenced. Regarding the tobacco crop the report says: "Harvesting and curing have been completed. Very good colors are reported and the crop is expected to grade from fair to good. There has been some complaint of 'wild fire' in a few sections, although, no great damage has resulted from this disease. The yield is now expected to exceed earlier expectations. Both the co-operative and independent warehouses have now opened. While the marketing season is somewhat later than last year there has been a good deal of sale and delivered during the past two weeks, and some very good prices have been reported."

FATHER KILLED BY GROWN SON

(By The Associated Press.) OWENSBORO, Ky., Oct. 17.—John Weber, 54, farmer of Davies county, was shot and killed by his son, Samuel, 24, here today seemingly without provocation. Five bullets, the full contents of the chamber of the revolver, took effect at short range in Weber's body. Following the shooting, the son turned and walked away and has not been apprehended.

JOHN PARSONS TAKEN BACK TO NATIVE STATE

John Parsons, a youthful desperado from Georgia, who has been the guest of the Georgia State Prison, is now on his way back to those "red old hills" of his native state to answer to a charge of murder.

Parsons is young, very young, but he has followed a wild and wayward course in the past few years. Recently he was taken in custody by Sergeant Haraway as a vagrant and landed in the city jail. In court, he told a number of tales and said that his name was John Johnson.

Sherrif B. H. Williams, of Murray county, Georgia, put local authorities as to the identity of the youth. Parsons' father arrived and identified his son. Now John goes back to be tried for his part in the murder of Tom Fitzgerald at Chatworth.

A brother of John, Walter, is said to be imprisoned in the case, but his whereabouts are unknown. It is said that John had been held to be more in the state in the murder case than his brother.

MAN IS HELD IN FLOGGING CASE

(By The Associated Press.) MAON, Ga., Oct. 17.—A man who was arrested today on a charge of flogging a woman and her child, and was held in the county jail, was taken to the state prison today.

The man, who was taken to the state prison today, was charged with flogging a woman and her child. The woman, who was taken to the state prison today, was charged with flogging a woman and her child.

You Are Worth \$22,000—And More If Toe's Educated, Says Experts

LINA BASQUETTE

YOUR PRICE TAG

Do you know that wherever you move you are carrying with you a fortune estimated at \$22,557.76? That is the estimate of the worth of the human body made by the National Industrial Conference Board at New York. Here is the way they figure it.

Eye \$2,557.76
Arm 5,717.04
Thumb 1,105.20
Hand 4,494.48
Foot 3,775.00
Leg 5,619.96

BY JOSEPHINE VAN DE GRIFT (Special to The Bee)

NEW YORK, Oct. 18.—But your best foot forward. Regard your five toes. Now wiggle em. That little action, sir or madam, is worth exactly \$3,880.96 to you.

At least so says the National Industrial Conference Board which places a value of \$3,775 upon a foot and \$5,104.96 upon a leg.

But if that foot and that leg were educated—well, some folks are making as much as \$100 a week from their educated legs. The only thing rocking the ranks of the educators at present seems to be whether a foreign educated steppar is worth as much as the home-trained variety.

"American legs are prettiest," sings Monsieur Ivan Tarasof.

"But Russian ones command higher salaries," tosses back Monsieur Anatole Bourman.

Monsieur Tarasof was for 13 years premier danseur at the Imperial Theater at Moscow. Monsieur Bourman was educated at the Imperial Ballet in Petrograd, the school which produced Anna Pavlova. Both, however, have deserted the haunts of the Dolchevists to found schools in New York where American girls may learn to pirouette and turn and point their toes properly.

It is not the first time that differences have arisen between educators. "Toward, entrepans Monsieur Tarasof," Miss Lina Basquette, whom artists declare the most beautiful they have ever seen. For her dancing she could easily have a salary of \$500 a week.

"Hein!" retorts Monsieur Bourman. "Does not Anna Pavlova get \$2,000 a performance?"

"But this Miss Basquette," pleads Monsieur Tarasof, "beautiful as she is, there are others—beautiful American girls. I go down the street—I perceive the little ankles. I draw in my breath. Behold, I cry—"

"At the Russian Imperial Ballet," hisses Monsieur Bourman, "there is Mile. Lubova Cherkoff, the ugliest dancer in Russia with the most ungainly legs of any dancer extant. But she is the most talented and beloved of the ballet mistresses."

On one thing only are they agreed. It takes less time nowadays to turn out a first class dancer. Seven years was the time allotted in Petrograd. An American girl of average intelligence can turn the trick in two years. And the cost is slightly more than a university education. With class lessons at \$40 a month and private lessons anywhere from \$10 to \$25 an hour, the whole process should be covered nicely for \$10,000.

Educated legs! But they can command a salary of \$400 a week, while graduates just out of college, rarely make \$25.

Thousands Have Kidney Trouble and Never Suspect It.

Applicants for Insurance Often Rejected

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. It is the mild and healing action of Dr. Kilmer's Swamp Root, is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent life insurance companies, in an interview of the subject, made the astonishing statement that for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are refused to be even suspected that they have the disease. Dr. Kilmer's Swamp Root is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—adv.

Aspirin

Say "Bayer"—Genuine!

Colds

Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians over twenty-three years and proved to be the best for Colds and gripe and many other ailments. Handy boxes of twelve tablets cost only few cents at any drug store. Each package contains proper directions for Colds and tells how to prepare an Aspirin gargle for sore throat and tonsillitis.

MOTHER: CHILDREN CRY FOR "FETTER'S CASTORIA"

STUART IN LETTER CLEARS UP POINTS ON ROAD PLAN

RICHMOND, Va., Oct. 17.—Governor Henry C. Stuart, president of the Pay-As-You-Go Roads Association, has made public the following letter written with reference to the question of road finance:

Col. E. B. White, Leesburg, Virginia.
My dear Colonel:

Replying to yours of Oct. 6th just received and to a former letter of recent date as to your lack of information when you requested in a Twelve Million Dollar bond issue of 1922. You will recall that I concurred in the view then very commonly accepted that the \$12,000,000 bond issue then proposed was not only desirable but necessary to meet the requirements of the situation as it then appeared and under this impression I wrote Governor Trinkle, under date of February 28th, 1922, expressing my concurrence in the policy of "a limited and properly guarded bond issue for roads," stating in my letter that such bond issue, together with the gasoline tax, (that is to say, the one per gallon tax then proposed) would provide "a fund immediately available for much needed road construction and maintenance. With the small bond issue then asked for was necessary to the purpose above mentioned, but in my further study of the question I discovered many things not then known to me and no more mature consideration of the underlying principles and probable consequences involved I reached the positive conclusion that Virginia's 1922-23 have authorized the \$12,000,000, 000 bond issue proposed in 1922, and should not authorize the now proposed \$50,000,000 bond issue.

I find that the facts in the case are far different from statements as presented to me and to the other people of Virginia. Instead of having for actual State Highway construction in 1923 less than \$3,500,000, Virginia has for this year over \$15,000,000 for State Highway construction and over \$3,100,000 for maintenance. On February 10th, 1923, (before the Special session of the Legislature convened) there was no statement as to the expenditure by the State Highway Commission for work to be done in 1923 in construction of State Highways approximately \$8,000,000 exclusive of all new funds becoming available in 1923. Contracts for the expenditure of \$4,686,000 of this sum had been let. No contracts had been let for the expenditure of the balance amounting to \$3,300,000.

On Sept. 30th, 1923, Virginia had available unexpended funds for State Highway purposes for 1923 approximately \$8,500,000, according to the statement of Auditor Moore, for the expenditure of much of which no contracts have yet been let, making it certain that a large balance, for actual conversion into road mileage. Including sums carried over from 1923 it now appears that without a bond issue the State Highway Commission will have under present laws in 1924 \$11,500,000 to expend for State Highway construction, over \$2,800,000 for State Highway maintenance, and approximately \$1,500,000 for State-aid to counties, a total of over \$15,800,000, to which must be added any Robertson act money that may be advanced to the State in 1924. It is perfectly clear to me that there is no necessity for a bond issue.

In February, 1922, I had not seen and read the hand of the leading advocates of a bond issue. Since that time their course has convinced me that neither the \$12,000,000 bond issue then proposed, nor the \$50,000,000 bond issue now proposed, is their

goal, but just the beginning of an era of reckless speculation which will mount into hundreds of millions of dollars, and cannot be checked until Virginia is spent from sheer exhaustion and her people ground down under an unbearable burden of taxation.

My opinion is now, as it was in 1922, that Virginia must construct a system of permanently improved roads as rapidly as sound financial and economic policies will permit, but the mileage in her present State Highway System of 4300 miles is not adequate to her needs, and in constructing it she must not make the construction of a greatly larger mileage impossible by assuming a large bonded obligation, the interest and sinking fund on which will absorb her current revenues which would otherwise be free for road purposes.

Since 1922 there has been inaugurated a policy of "pay-as-you-go" plan for financing without a bond issue, not only the present State System in seven years (or even earlier) but also for the construction of a large additional mileage every year for years to come undiminished by bond interest and sinking fund charges, assuring Virginia not only the reasonably speedy construction of its present State System, but a vastly greater mileage of improved roads than it will be possible for her to have under any bond issue policy she can adopt without a heavy increase in property taxation.

In addition to the State Highway construction funds the pay-as-you-go plan provides over \$16,450,000 for State Highway maintenance, and over \$16,500,000 for State-aid to county roads during the seven-year construction period, with the prospect of continued State-aid revenues so long after the seven-year construction period as there is need thereof.

The fact that I have stated my present conclusion after having been so far prejudged against a bond issue as to have expressed the opinion I have referred to gives me the greater confidence in the correctness of my statement to you, and which I have already made to the people of Virginia, that the now proposed \$50,000,000 bond issue ought to be defeated at the polls on November 6.

You have no doubt, seen in some of the pro-bond newspapers the editorial statement that under the pay-as-you-go plan taxes will be increased \$1,500,000 per annum, and that under the bond issue plan taxes will be reduced \$1,500,000. The mere statement of these propositions, or either of them, is the best demonstration of their own absurdity. The publication of such nonsense, to call it by the mildest term, is an insult to the intelligence of Virginia citizens, and cannot prevail against the sober judgment of the people.

Very truly yours,
HENRY C. STUART

BROKERS PLEAD GUILTY

(By The Associated Press.) NEW YORK, Oct. 17.—Lee R. Roberts and Walter W. Stokes, members of the former brokerage firm of Roberts, Bruen & Stokes, pleaded guilty today to indictments charging unlawful disposition of securities belonging to customers. Sentence will be imposed October 26.

Oscar H. Bruen, the other partner, who also recently pleaded guilty, was sentenced to a two year term in Sing Sing prison and fined \$22,000.

MULES FIGURE IN FREAK ACCIDENT

A freakish accident occurred early yesterday afternoon at the Crowell Auto Company's plant when two large mules attached to a "Polaris" oil wagon fell at least twenty feet from the wooden driveway, which leads from Linn street into the top floor of the establishment. The two mules suddenly became frightened and swerving, broke through the railing. As both mules were on the side, the wagon tongue and the harness broke, leaving the wagon perilously near the edge of the driveway. Eyewitnesses said that one of the mules hung suspended from the driveway, the metal above catching in one of the boards. The hoof was pried loose and the mule fell to the ground on his head. Examination of both animals failed to reveal any broken bones or serious injury, though both animals are expected to suffer for some days from the muscular strain incidental to their fall. Had the wagon fallen on them both undoubtedly would have been killed or badly injured.

NERVOUS HACKING

Can not be cured by a glass of water, but will disappear under the healing and soothing effect of **CHAMBERLAIN'S COUGH REMEDY**. Every user is a friend.

If Ruptured Try This Free

Apply it to Any Rupture, Old or Recent, Large or Small and You are on the Road That Has Convinced Thousands

SENT FREE TO PROVE THIS

Anyone ruptured man, woman or child, should write at once to W. S. Rice, 397-C Main St. Adams, N. Y. for a free trial of his wonderful stimulating application. Just put it on the rupture and then the muscles begin to tighten, they begin to bind together so that the opening closes naturally and the need of a support or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance? Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt, nor prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's two fists. Try and write at once, using the coupon below.

Aspirin

Say "Bayer"—Genuine!

Colds

Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians over twenty-three years and proved to be the best for Colds and gripe and many other ailments. Handy boxes of twelve tablets cost only few cents at any drug store. Each package contains proper directions for Colds and tells how to prepare an Aspirin gargle for sore throat and tonsillitis.

MOTHER: CHILDREN CRY FOR "FETTER'S CASTORIA"

Defense In Garrett Case Being Heard

Prosecution Rested Last Night After 22 Witnesses Had Been Heard—Jury Will Get Case Friday Night.

(By The Associated Press.)
CUMBERLAND COURTHOUSE, Va., Oct. 18.—Continuing the speed that marked both yesterday and the preceding day, the defense in the second trial of County Clerk R. O. Garrett, charged with the murder of Rev. E. S. Pierce, most of the less important witnesses had been heard when Judge White recessed court for dinner, and this afternoon both the defendant and his brother, Larkin C. Garrett, indicted jointly with him for the Pierce killing, were expected to take the stand.

Indications were that all evidence would be in before adjournment to night and tomorrow will be given over to completion of instructions and final arguments before the jury which is expected to get the case by tomorrow night.

The defense centered its efforts this morning toward building the theory that Rev. Pierce knew something of the A. M. Chandler shooting last May 3 which it is claimed led directly to the Pierce tragedy. Chandler was shot from ambush at night and it is the claim of the defense he was shot by mistake for L. C. Garrett.

Several witnesses were put on the stand as to the threats made by Mr. Pierce.

(By The Associated Press.)
CUMBERLAND COURTHOUSE, Va., Oct. 18.—The prosecution having completed its evidence and rested last night, Robert O. Garrett began his defense in the Cumberland county Circuit court today against the charge of murder resulting from the fatal shooting last June 5 of Rev. E. S. Pierce by himself and brother, Larkin C. Garrett. Both Garretts were expected to take the stand and indications were that all defense testimony will be in before adjournment to night and tomorrow will be given over to final arguments and the jury likely will get the case that night.

All told the prosecution placed on the stand, 22 witnesses, including the widow and children of the slain minister. Mrs. Pierce was the last witness before the state rested. In addition, Judge B. D. White called to the stand Commonwealth's Attorney W. M. Smith, of Cumberland county, a witness to the Pierce tragedy, and who was discarded as a state witness after he had taken the stand.

Court at the trial of Larkin Garrett last July. Judge Smith was on the stand about two hours and was subjected to a severe cross examination by R. E. Byrd for the commonwealth, who tried to make the witness admit he did not know just what had happened and that he had told several different versions of the shooting, particularly as to who fired the first shot.

Dr. John Shelton Horsley, prominent Richmond surgeon, was the first witness for the defense when court opened at 9:05 o'clock.

He described the wound in the body of R. O. Garrett as a revolver bullet wound with a point of interest two inches to the left of the spine about six inches above the waist line, ranging around a rib to the right under the skin and ending at the tenth rib.

Painful Rheumatic Swellings Disappear

Discoverer Tells Druggist Not to Take a Cent of Anyone's Money Unless Allenrich Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, many experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery which he called ALLENRICH. Others who called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists to dispense ALLENRICH with the understanding that if the pint bottle does not show the way to complete recovery he will gladly return your money without comment. Mr. Allen's Drug Store can supply you.—adv.

Football Players Limbering Up Now With Joint-Ease

After a t h game or practice Joint-Ease takes the kinks lameness and soreness out of your arms, legs and joints so quickly that you'll want to start all over again in a few hours.

It's great stuff—speedy and sure, and many stars are wise to it.

Just two minutes' rubbing and this great, stainless Joint-Ease soaks right in through skin

and flesh to the ligaments and tendons and bones—exactly where the soreness is.

Ask for a tube of Joint-Ease and keep it handy as thousands of other good players do. Costs but a trifle at druggists.—adv.

Good Morning Judge!

Alex Gunn, colored, appeared before the mayor this morning to answer charges brought by his wife, Fannie, that he assaulted her and created a disturbance. Fannie averred that she could not turn her head as result of a beating administered by her husband. It was also brought out that he continued to beat her until she bounced a pop bottle across his head a couple of times. The bottle was not broken—neither was his head. Alex drew a fine of \$6 and costs.

Charles Parker, colored, contributed \$15 and costs for engaging in a pastime which means the money was either being won or lost.

B. L. Moore was assessed \$11 and costs for reckless driving as result of an accident with J. M. Moss. Their machines sideswiped on North Main street yesterday. Each blamed the other but did not even stop to see what damage had been done, his story might have gone but he drew the fine. Moss claimed that after the accident Moore kept going and he pursued him in his machine far enough to discern the license number on his car.

G. L. Adams was fined \$10 and costs for operating a car without the proper brakes and an additional \$1 and costs for running the machine without a permit.

A warrant against C. M. Bradley charging him with cutting the traffic on the corner of the corner, was dismissed at costs.

A. H. Breeden drew a fine of \$10 and costs for not having proper lights on his machine.

Two drunk cases were also disposed of.

Former Diplomat Testifies Against Mrs. Stokes At Trial

(By The Associated Press.)
NEW YORK, Oct. 18.—Horace G. Knowles, formerly in the diplomatic service, testified today in the trial of Mrs. Helen Elwood Stokes, charged with the murder of her husband, W. E. D. Stokes, in 1914.

Stokes was charged with the murder of her husband, W. E. D. Stokes, in 1914. She was charged with the murder of her husband, W. E. D. Stokes, in 1914.

Interest of Legion Centers Around Stand To Be Taken On Public Issues

(By The Associated Press.)
SAN FRANCISCO, Oct. 18.—Interest of delegates to the fifth annual convention of the American Legion centers in the stand to be taken by the organization on public questions. Confronted with the necessity for speedy action on resolutions prepared by committee during the past two days the delegates today wrestled with recommendations and found the harmonizing of widely divergent views among the legionnaires their most difficult task.

Protracted committee sessions yesterday and last night resulted in the preparation of the resolutions defining the attitude of the legion on the chief problems of organization policy in a manner generally considered satisfactory although committee leaders refused to reveal the proposals prior to the convention session.

The Ku Klux Klan, which developed into a deadlock yesterday with Michigan delegates holding out for complete repudiation of the organization, was one of the major questions confronting the delegates today. Likewise, the bonus problem upon which the delegates held divergent views, loomed forth importantly in today's deliberations. Little interest developed in connection with both issues last night. Causes of delegates supporting different candidates for national commander lasted until the early hours of this morning. Available information does not indicate any outstanding choice. The election will be decided tomorrow.

The principal speaker today was Samuel Gompers, president American Federation of Labor.

(Special to The Bee)
MARTINSVILLE, Va., Oct. 18.—Electric current generated in Charlotte, N. C., is illuminating not only the streets of Martinsville but also the Henry county fair this week. An emergency arose on account of the protracted drought which has brought the level of Smith River, which provides hydraulic power, to the lowest level seen for many years. In order to accumulate a reserve of water

during the night the street lights were cut out for several nights. In order to provide illumination for the fair however the good offices of the local textile corporation were availed of and power from North Carolina has been secured assuring a light for all purposes during the week of the fair. The present emergency is expected to disappear with the first good rainfall. No rain has fallen here since the end of September.

Power Generated At Charlotte, N. C., Used To Illuminate Martinsville

Weeks Re-Pledges Woods Support In Philippine Islands

(By The Associated Press.)
WASHINGTON, Oct. 18.—The support of the Washington administration was re-pledged to Governor General Leonard Wood's regime in the Philippine Islands in a cablegram sent him a few weeks ago by Secretary Weeks and made public today.

The War secretary's statement says recognizing the necessity of bringing about cooperation between the branches of the Philippine government, executive, legislative and judicial, and maintaining the clear line of demarcation between them which is essential to well balanced government, it seems well to make the following authorized statements of the administration.

"The personal sacrifice involved in your acceptance of your present office is proof of your desire to serve the Filipino people as you have served the United States. You are entitled to the support of the administration and you have it.

"The controversy between the legislative leaders and certain executive officers is at bottom a legal one. The Congress, after full consideration vested the authority of control and supervision over all departments and bureaus in the governor general, which makes these officials directly responsible to him and not to the Legislature as in a parliamentary form of government.

"The powers of the governor general have not been exceeded or misused in any instance of which the War Department is advised. If the Legislature has enacted legislation violative of the provisions of the organic law, such legislation is to that extent null and void, and in so far as it provides for encroachments on the authority of the governor general is in no way binding on that official."

Appearance as a witness of Knowles, who did not appear at the first trial of the suit, came as a surprise. It was apparent from the attitude of defense counsel that they expected to see him.

Knowles, who said he was an exporter and representative of the "Defacto government of San Domingo," as well as a lawyer, declared he had come into court on October 1, on his own volition to identify Mrs. Stokes to his own satisfaction. "When I saw her," he said, "she was sure she was the woman he had seen on 35th street."

Under cross examination he said he was not sure of the date on which he visited the court and that it was on the opening day of the trial.

Minister Klan Official Arrested For Being Drunk

(By The Associated Press.)
ATLANTA, Ga., Oct. 18.—Dr. Caleb A. Ridley, Imperial Kludd of the Ku Klux Klan and former pastor of the Central Baptist church of Atlanta, was reported as "too ill" by his attorneys to appear in police court this morning to face charges of being drunk and operating an automobile. The case was postponed until Saturday.

(By The Associated Press.)
ATLANTA, Ga., Oct. 18.—Rev. Caleb A. Ridley, known as the Imperial Kludd of the Knights of the Ku Klux Klan, was scheduled to appear in police court here today to answer charges of being "drunk and operating an automobile" following his arrest. After spending several hours in a police station cell, the Imperial Kludd was released on bond of \$500.

Motorcycle Officer L. E. Skamata arrested the Klan official after he said he noticed the minister's automobile zigzagging on Peachtree street. The officer halted the machine and placed Mr. Ridley under arrest. The traffic officer said Mr. Ridley was apparently under the influence of whiskey and that he found two small bottles containing liquor in the machine.

Before being locked up the Imperial Kludd declared that he had driven into the country where he was accused by a man who offered to give him some whiskey. He stated he accepted the offer and took a drink. Following his release the minister denied the charge that he was drunk and that two bottles of whiskey were found in his machine.

"I was not drunk," stated the Klan official. "The fact is I had a half pint bottle containing about two or three spoonfuls of liquor, and I had taken one drink before my arrest."

HALT FUNERAL CORTEGE. ORDER COFFIN REMOVED IN SEARCH FOR LIQUOR

NEW YORK, Oct. 18.—The stopping of the funeral cortege of James Fuller of Union Hill, N. J., while the police of Milford, Conn., took the coffin from the hearse in search of contraband liquor, yesterday, angered the mourners and caused the widow to faint.

The procession was passing through Milford, when it was stopped. Chief Maher, directing the search, ordered removal of the coffin over protests of the undertaker and the pleadings of the widow. When she saw her pleas were not to be heeded, she swooned. The coffin was not opened, however, for the undertaker presented a death certificate and removal and burial permits issued by Meriden, Conn., authorities.

Chief of Police Maher said he was acting on a tip from the neighboring town of Devon, that a casket containing liquor was to go through Milford.

Barbecue For Medical Society

(By The Associated Press.)
ROANOKE, Va., Oct. 18.—Today's program of the 5th annual convention of the Medical Society of Virginia will reach its climax in a barbecue at Lakeside from 5 p. m. to 8 p. m., followed by a scientific session of the doctors at Lakeside and an entertainment for their wives, members of the women's Auxiliary of the society, at the Country Club.

The day's activities began with a scientific session at Hotel Roanoke at 9 o'clock this morning and another session was scheduled to be held at the hotel from 2 to 5 this afternoon.

Yesterday's program came to a close last night with a buffet dinner and dance at the Hotel Roanoke, which was pronounced one of the most successful social events of the season.

LEAVE FOR BELGRADE

(By The Associated Press.)
LONDON, Oct. 18.—The Duke and Duchess of York, left today for Belgrade where the Duke will officiate as godfather at the christening of the baby Crown Prince of Yugoslavia.

RUTH TAKES TEAM ON BARNSTORMING TRIP

HORNELL, N. Y., Oct. 18.—Babe Ruth and a picked team of major league players opened a barnstorming trip here today in the same city where his trip of two years ago was abandoned at the demand of Commissioner Landis. Ruth says he has the sanction of Judge Landis to play exhibition games until November 10.

Ruffles which extend only part of the way around the skirt, leaving a plain back or front, are very much favored by the fashionable designers. The ruffled front is particularly new.

DEPARTS FROM CHICAGO

(By The Associated Press.)
CHICAGO, Oct. 18.—Premier Lloyd George and his party after two days in Chicago resumed his America tour today when his train departed at 10:05 a. m. for Springfield, Illinois. The distinguished visitor was in much better physical condition than early yesterday and showed little evidence of his cold.

—Lynwood Besseau who yesterday underwent an operation at Edmunds hospital, was reported today as having withstood the ordeal well.

NATIONAL HEAD OF RED MEN WILL SPEAK HERE

The three tribes of Danville Red Men are preparing for a big "pow-wow" which is to be held at Schoolfield on the night of October 23rd when class adoption ceremonies will be seen. It is understood that more than fifty members will be formally accepted and taken into the councils of the organization and it is planned to have not only national and state officials here but delegations from all of the surrounding cities and towns. The details of the programme are being worked out by members of the three Danville tribes, Chickasaw and Potomac of Danville and Anacostia of Schoolfield. On account of the large attendance anticipated it will be impossible to hold the session in the Schoolfield hall so the auditorium of the Baltimore Avenue school house has been secured for the occasion.

Charles Pass of Harrisonburg, Pr., senior sashmore of the United States has promised to attend the rally here also E. B. Colver of Richmond, great sashmore of the Virginia Red Men, and E. A. Emory, great sashmore of North Carolina. Congressman Murray Hooker is to be present to make an address and—it was learned from an authoritative quarter this morning that State Col. of Marshall E. Booker will "ride the coat."

Red Men are expected to be here from Lynchburg, Greensboro, N. C., Roanoke, N. C., Albemarle, South Boston, Fidelity and other nearby communities.

To Discuss Port Development of Norfolk Today

(By The Associated Press.)
RICHMOND, Va., Oct. 18.—Port development at Norfolk and in the vicinity of the Virginia seaport will be the chief topic for discussion at today's session of the fall meeting of the American Society of Civil Engineers now in session here. The delegates will leave here late today for a steamship trip to Washington.

Homers L. Ferguson, president of the Newport News Shipbuilding and Drydock Company, was to have read a paper on "the port problems of Norfolk and vicinity," but yesterday wired that he would be unable to attend. His paper, however, was sent here and will be read by Godfrey Smith, Frederick W. Cowan, Montreal, S. H. Yonge, Richmond, and F. F. Harrington, Norfolk, will participate in the discussion that will follow.

The Norfolk city plan in relation to its port development has been assigned as the subject for George B. Ford of New York, with Millard A. Butler, Norfolk, and Walter H. T. Taylor, third, Norfolk, participating in the discussion.

Charles S. Churchill of Roanoke has for his subject "the railroads part in the development of Hampton Roads" with William D. Faucette of Norfolk leading the discussion.

Mal-Practive Case Taken Up Again

(By The Associated Press.)
WASHINGTON, Oct. 18.—Adjourned once because no funds were available to pay a stenographer, the general court-martial trial of Capt. Samuel C. Gwynn, army medical corps retired, on charges of mal-practice was under way again today as a result of a special allotment for the purpose by the judge advocate general.

During the uncertainty as to whether a stenographer would be provided, the court assigned Major Kenner and Lieutenant Whitney, assistants to the trial judge advocate to take the testimony in shorthand which under that procedure, it was estimated would extend over a month or two. They have been relieved of the duty.

Charges against Captain Gwynn resulted from the treatment of Private Guy Pendleton at the Fort Eustis, Virginia, hospital. He lost both legs by amputation after a motorcycle accident.

Night Flying Plays Part In Training Airmen

(By The Associated Press.)
NORFOLK, Va., Oct. 18.—Night flying is to play an increasingly important part in the training of flyers at the Hampton Roads naval air station, and the lighting system of the landing fields is being improved in preparation for these flights. Several night-time flights have been made from air station by pilots attached to the aeroplane ship Langley, which is now at the navy yard.

STEAMER RESCUES SERVICE

(By The Associated Press.)
NEW YORK, Oct. 18.—The steamship Kronland, 22,500 tons will resume service today for the first time since the war, between New York and California, via Panama and the Panama canal. Fortnightly service with the steamships Finland and Manchuria sailing November 1 and 22 and respectively, will be established.

NOTICE

The Woman's Union Prayer Meeting will be held Friday afternoon at the residence of Mrs. N. L. Pollock, Jefferson avenue, at 4 p. m.

The Message of Thousands of Women

Petersburg, Va.—After motherhood I could not regain my strength, until my mother advised me to take Dr. Pierce's Favorite Prescription. I never have taken any medicine that benefited me quite as much; it strengthened every part of my body and I have not had any form of inward weakness since. I would not hesitate to recommend Dr. Pierce's Favorite Prescription to every woman who is weak, nervous, and ailing following "motherhood."—Mrs. Alice Rittenberry, 1122 Farmer Street.

Start at once with this "Prescription" and see how quickly you pick up—feel stronger and better. Write Dr. Pierce's Invalids' Clinic in Buffalo, N. Y., for free advice or send 10c for trial pack, tablets.—adv.

CRIME IMPELS GOVERNOR TO WARN PLOTTERS

CALCUTTA, Oct. 17.—In proroguing the Bengal Legislative Council, Lord Lytton, the governor, voiced a note of anxiety and warning regarding the recent recrudescence of violent crime in Calcutta and the parts of the province. These outbreaks are attributed to the work of secret revolutionary societies, having as one of their aims the assassination of government officials.

"The crimes of violence which have in the last few months deeply shocked the public of Calcutta have been generally assumed to have been the acts of ordinary criminals. The latest murder in the post office at Sankar, told and the trial and conviction of one of the gang who committed the murder has revealed to the public the workings of organized revolutionary societies of which Bengal has had such an unhappy experience in the past. The crime of violence, which many will remember as hideous, night-mare, and which everyone had hoped had gone forever, has created a situation in which the government will require, to an exceptional degree, the support of the public."

"The contaminating influence of these gangs of fanatical idealists, who adopt terrorism through robbery and assassination as their weapon, is a danger to the younger generation from which our family can feel altogether immune."

"A week ago the latest victim of this sinister conspiracy told in the dock the story of how he was sought out by those who are organized as his leaders and ordered to join with others in a robbery which led to the murder of a perfectly innocent man. It is the impressionable youth of Bengal who are seduced and sacrificed by this insane organization. I appeal to all those who remember the dark days through which Bengal passed from 1912 to 1916, to all those who have sons of their own to protect, to rally to the support of the government to help us stamp out this disease before it grows to dimensions which will make it difficult to cope with."

"This is not a case of mere political opposition, or criticism of the government, or sedition propaganda. It is a conspiracy of dangerous, fanatical criminals among whom violence is an acknowledged creed and terrorism a deliberate policy, whose agents are trained in robbery and murder, whose victims are selected without motive or discrimination, and who constitute a danger to every household in the country. I have every confidence that when this is realized the whole educated opinion of Bengal will demand that vigorous and effective measures shall be taken to exterminate the evil."

WITNESSES ARE SUMMONED IN KLAN HEARING

(By The Associated Press.)

INDIANAPOLIS, Oct. 17.—Subpoenas calling for the appearance in federal court here October 24 of several persons including state and county officials members of the judiciary and political leaders of the majority parties as witnesses in the injunction suit brought in behalf of six South Bend citizens against the Ku Klux Klan, issued yesterday by William Kappes, clerk of the court. The list of witnesses was submitted by Joseph Roach, who with Patrick O'Donnell, president of the American Unity League, brought the action for the South Bend residents, who seek to have their names removed from lists purporting to be lists of Klansmen.

Among the persons for whom subpoenas were issued are Ed. Jackson, secretary of state; Ora Davies, state treasurer and Lieutenant R. P. Holler.

The original suit, among other charges, alleged the members of the Klan are engaged in a conspiracy to form a super-government to gain control of the judiciary and the administration of justice and that the Klansmen are endeavoring to gain control of the army and militia.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramping or pain.

Take one or two at bedtime for quick relief. Eat what you like, 15c and 30c.

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old home-made remedy has no equal. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. All night, you'll say that the immediate relief given is almost like magic. It takes but a moment to prepare, and really there is nothing better for coughs.

Into a pint bottle, mix 2 1/2 ounces of Pinex, three drops plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Boil.

For cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the wheezing then stop, and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a genuine concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

"Dialogue" sixth lecture of a course in Short Story Writing by Dr. J. Berg Esenwein.

Rogers Killed By Brother, Says Woman in Case

(By The Associated Press.)

AVON PARK, Oct. 17.—With his own revolver, Love Rogers, coffee counter, Georgia, lumber man, was slain by his brother, Alton, last Nov. during a quarrel between Alton Rogers and her husband, Love Rogers.

In his home, according to a confession made by Mrs. Love Rogers today to Sheriff R. H. Hancock, of Sebring county, Florida, and Sheriff Tanner of Coffee county, Georgia. She admits, however, her husband was unarmed at the time.

An attempt by Georgia authorities with the murder, stolidly denies all knowledge of the crime. Sheriff Tanner left Sebring, the county seat, late today for Douglas, Georgia, with his two prisoners.

"An attempt by Mrs. Rogers to commit suicide yesterday was frustrated by a friend," according to Sheriff Hancock. Mrs. Rogers claims she and Alton Rogers were married three months ago, but after questioning by Sheriff Hancock, she could not remember where the wedding took place, the sheriff said.

"He had to do it," said Mrs. Rogers, when finally she wilted under severe questioning to which both sheriffs subjected her.

A dark spot, believed to be blood, later discovered in the home of Love Rogers in Georgia, and two rows of cotton planted wider apart than the others in the Rogers garden were the reminders by which Mrs. Rogers' composure was broken.

"Why are those two rows of cotton planted farther apart than the rest of the garden?" demanded Sheriff Tanner, and Mrs. Rogers winced. Seeing his opportunity, the officer snapped, "and whose blood is that in front of the fireplace?"

Mrs. Rogers raised an arm as if to shield her face and then seared her story to the officers punctuating it frequently with cries of "he had to do it; the boy had to do it."

Mrs. Rogers declared that her husband came home intoxicated on the night he was killed and began to abuse her, threatening her until Alton intervened, when Love Rogers turned on him. During the quarrel, Alton seized a revolver from a mantle, Mrs. Rogers said, and fired several shots at his brother, killing him.

An entirely different story was told by Alton Rogers. He denied knowledge of the crime and says that one of the dead man's neighbors had once shot at him, because of Love's friendship for the neighbor's wife.

Alton asserts that this woman disappeared and soon afterwards his brother, Love, also went away.

Alton came to Florida and, he says, Mrs. Love Rogers met him in Bradenton, Fla., after she had secured a divorce from her husband. He had obtained work in a crate mill there and says he returned to Georgia soon after that time and came to Avon Park only last week.

COLUMBIA GRAPHOPHONE CO., TO REORGANIZE (By The Associated Press.)

NEW YORK, Oct. 17.—Mortimer N. Buckner, chairman of the reorganization committee of the Columbia Graphophone Manufacturing Company, which was placed in the hands of a receiver Monday, today announced a reorganization providing for two new companies.

One company would continue the operations of the present company and the other would take over and liquidate such assets of the present company as were required for economical operation. The names of the two companies will be announced later.

STATION WJZ—Broadcast Central, 33 West 42nd St., N. Y. City. 465 Meters. 660 Kilocycles.

8:00 p. m.—Concert by Mrs. W. W. Calapine, soprano; Mrs. M. F. Ford, pianist and accompanist.

Bedtime story for grown-ups by Orison S. Madden.

9:00 p. m.—Arlington time signals.

EDISON SAYS THAT IF FORD IS SENT TO WHITE HOUSE A GOOD MAN WILL BE SPOILED

(By The Associated Press.)

NEW YORK, Oct. 17.—Thomas A. Edison, electrical wizard in one of the first interviews he had ever granted, spoke today.

He said that he recently had discussed the problem with a group of Nova Scotia power men. He declared that Secretary Hoover's proposed super-power system was feasible. He added that "whatever Hoover says is all right" and characterized him as a "level-headed man."

Mr. Edison was animated in his discussion of the development of electrical devices for the reduction of the daily hours in which the world's work is done.

"It can be done, and soon, although I don't know how soon," he said. "But I am not sure that it will be a good thing for the nation. It will create much leisure and it all depends on what people will do with their idle hours."

"How will they use them? Will not the young men and women be harmed in the manner in which they disposed of their added leisure, rather than benefited? It will be a splendid thing for the older people, of course, for they will know how best to employ the added leisure hours."

"I've got to have work to keep going," he said.

He told of experiments by Henry Ford in taking over an old grist mill on the Rouge river in Michigan.

"He installed turbines," Mr. Edison said, "and developed so much cheap power that farmers served from the plant cut their work down to six hours."

"Manufacturing plants in the district so increased in capacity so that women left the farms in dull seasons and earned \$6 a day in the factories."

Commenting on the unpopularity of the ideas, Mr. Edison declared that it took from seven to forty years from the initial demonstration of a beneficial to its ultimate acceptance.

"I made the first dozen typewriters," he said, laughing, "and it took me seven years to convince the public they wanted them and then another three years to sell them."

Within a very few years, he said, coal could be transformed into electrical energy at the mine and distributed throughout the country in high-power transmission lines, doing more quickly and efficiently the work now performed by the fuel after long haulage and many handlings. Transport-

ation costs and the various other chances now connected with getting fuel energy to the consumer would thus be obviated, he said.

Why, I have been advocating this for forty years," he said.

He added that he recently had discussed the problem with a group of Nova Scotia power men. He declared that Secretary Hoover's proposed super-power system was feasible. He added that "whatever Hoover says is all right" and characterized him as a "level-headed man."

FORMER FOLLIES
BEAUTY IS FREED
OF AUTO CHARGE

(By Chicago Tribune Service.)
NEW YORK, Oct. 17.—Mrs. Irene Wales Broderick Leslie, ex-Follies beauty, living at the San Remo Hotel, appeared in West Side Court today with a group of her theatrical friends and was acquitted of the charge of unlawfully withholding a \$12,000 automobile belonging to Weatherford Allen, a wealthy manufacturing chemist.

Allen testified that the last time he saw the car was when he visited Mrs. Leslie in 1922, previous to her marriage at 4 West Fifth street, where he said, he maintained an apartment for her. At the time the car was driven by the chauffeur now employed by Frank Audiere, the Brooklyn "millionaire stevedore," whose name has appeared in newspaper stories connecting him with Mrs. Leslie.

Mrs. Leslie produced a letter written on pink stationery in which she claimed Allen signed the car over to her. Allen said he "could not recall signing the letter." A civil action is now pending to determine the ownership of the impounded automobile.

CONSIDER PROBABLE
COURSE OF STORM

(By The Associated Press.)
NEW ORLEANS, Oct. 17.—Reports of a new Gulf disturbance with its center about latitude 26, longitude 90, or about 250 miles directly south of New Orleans, prompted the weather bureau in this forenoon on observations to determine its probable course. It was said to be too early to determine where it would strike land and no actual storm warnings were ordered displayed although advisory warnings were issued.

New Penetration
Treatment For
Pyorrhoea Cases

Dentists say that a great majority of people either have pyorrhoea (Riggs Disease) or pyorrhoeal tendencies or bleeding gums, sensitive or loose teeth, pus pockets and bad odors. Pyorrhoea not only affects the general health, but also the local health, as the pus which is very poisonous, is absorbed into the system, causing serious stomach troubles, the results of which are sometimes fatal.

You can now treat pyorrhoea at home and get relief with formula known as Creosene, the new discovery that, through penetration, carries a powerful but harmless germicidal, of which creosote (the greatest germ-destroying, tissue-preserving, agency known and used by dentists for years) is the base, right to the roots of the teeth, killing the pyorrhoea germs, making the gums healthy, tightening up and preserving the teeth, healing pus pockets, relieving pain and destroying odors caused by decayed or abscessed teeth.

Creosene is pleasant to use, and should be used by every one who wears a plate, as it keeps the gums firm and healthy and free from pain. \$1.00 at your druggist and you may buy back if it fails. Creosene Co., Atlanta, Ga.—adv.

Better Than
Whiskey For
Colds and Flu

Delightful Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies That Are Endorsed By Medical Authorities to Cut Short a Cold or Cough Due to Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter if You Don't Feel Relief Coming in Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the drug trade is aspirinal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories, tested, approved and most enthusiastically endorsed by the highest authorities, and acclaimed by the people as ten times as quick and effective as whiskey, cough and croup, or any other cold and cough remedy. Aspirinal has never failed. All drug stores are supplied with Aspirinal. So all you have to do to get relief from that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonsful. With your watch in your hand, take the drink at one swallow and call for your money back two minutes if you cannot feel the relieving symptoms of your cold fading away like a dream within the time limit. Don't be bashful, for Aspirinal is the greatest thing since the world began. Aspirinal is the only remedy that takes the remainder of the bottle to your wife and children for personal use. Aspirinal is the most effective, the easiest to take and the most agreeable cold and cough remedy for children as well as adults. Aspirinal is the greatest relief for catarrhal croup and children's choking up at night.

Wonderful For Piles
Says Peterson

"You received every tick a dozen more letters like the ones below from people who have suffered from hemorrhoids. You would feel better than the man whose life is devoted to money grubbing."

"Gentlemen, I have been suffering from hemorrhoids for the past twenty years. During that time I have tried numerous remedies, all of which have failed. Two months ago I determined to try Peterson's Ointment. The improvement was so decided after using one box that I have continued, and on the completion of the fifth box am now entirely cured."

"This is written with the view of passing along the good word to other sufferers. Very truly yours, Chas. E. Caswell, 232 Third Street, Albany, N. Y."

SAYS \$2,000,000 WORTH OF FUEL
IS WASTED EVERY DAY

WASHINGTON, Oct. 18.—Battling for some months, is getting ready to step forth and knock the public for a long series of big fuel bills.

Prepare, then, to circumvent the bill by getting more heat out of less coal, or gas or whatever else you use to keep warm.

Samuel S. Wyer, associate in mineral technology of the Smithsonian Institution, has just issued a pamphlet giving the exact procedure for the most economical and efficient use of coal, coke, gas and oil in the home. It is a most interesting and well understood and applied throughout the country, he contends, the same heat in service could be obtained with one-half the fuel and there would result a saving of easily \$2,000,000 worth of fuel a day.

Simultaneous with the issuance of Mr. Wyer's pamphlet, Rudolph Kuhlrich, a fuel engineer of the U. S. Bureau of Mines, today gives some timely suggestions on the gentle art of firing the furnace. Here, in substance, is his advice to coal users:

Cooking Coal
"By burning coal, instead of cooking it, you can save 25 per cent of your fuel bills."

"Too many persons make the mistake of covering the entire range each time they add coals. When this happens, most of the gases are cooked out and escape up the chimney without being burned."

"The best method is to apply a heap of fuel on one side of the fur-

nace and then, when this has burned down, throw the next heap on the opposite side. This alternating method always exposes a bed of live coals to ignite the gas."

"A big fire burning slowly is cheaper in the long run than a little fire burning fast. Fast burning means incomplete combustion and hence more waste in the ashes."

"Regulate your fire by the damper and the ash-pit door instead of by the fuel door. Every pound of excess air taken in above the fire cools the furnace just that much. Keep your furnace clean—its mussy work, but it pays. Keep the heating pipes well covered."

"Fuel Powder"
That proper methods will save a surprising amount of coal was demonstrated to fuel engineers not long ago during this investigation of a "fuel powder" that had appeared on the market. This, when sprinkled in the furnace under very careful and detailed directions, was supposed to bring about a tremendous savings.

It did. But the stuff was sold more than 30 per cent common salt and just enough permanganate of potash to give the flames a pretty red hue. The printed directions for its application, though, were about the best set of furnace instructions ever devised. They were so good that they performed just as efficiently without the powder as with it. In them lay the secret of savings.

Subsequent articles will deal with Mr. Wyer's rules for burning gas, coke, coal and other fuel.

three other occasions forced to enter into combination of the purpose of the overhauling that were three in number. The first was the case of the Hughes proposal, which she has invariably played a large part in a decisive part.

"So when Britain today takes up a temperate and restrained attitude free from the spirit of vengeance she is simply pursuing traditional policy which upon two occasions saved France from the fate which is now being inflicted upon Germany."

"What is the British attitude toward this limited but all important question of reparations? It is this: 'That Germany ought to pay to the limit of her capacity. She has been guilty of inflicting wanton damage upon neighbors who were only anxious to live in peace by her side. She has violated the principles of justice and civilization which she is liable to make good the damage she has inflicted.'"

"But she can only pay to the extent of her capacity. Her capacity is limited. It is not reasonable to expect her to pay more than she can. The limit of her capacity is the limit of her capacity. She has been guilty of inflicting wanton damage upon neighbors who were only anxious to live in peace by her side. She has violated the principles of justice and civilization which she is liable to make good the damage she has inflicted."

"But she can only pay to the extent of her capacity. Her capacity is limited. It is not reasonable to expect her to pay more than she can. The limit of her capacity is the limit of her capacity. She has been guilty of inflicting wanton damage upon neighbors who were only anxious to live in peace by her side. She has violated the principles of justice and civilization which she is liable to make good the damage she has inflicted."

"But she can only pay to the extent of her capacity. Her capacity is limited. It is not reasonable to expect her to pay more than she can. The limit of her capacity is the limit of her capacity. any, whether Germany is capable of paying more. If so how can she pay? Mr. Secretary Hughes made a proposal in his famous New Haven speech which always struck me as being the right way of dealing with the situation. He suggested setting up of a committee or commission of experts to enquire into Germany's capacity. He made it clear that every facility would be given for the appointment of American expert on that commission. He also said that the report would not be obligatory on the Allies. If they did not like it, they might reject it. What conceivable objections can there be to that proposal?

"America was originally represented on the reparations commission, to which the treaty of Versailles delegated the consideration of Germany's capacity. This proposal is substantially a restoration of that part of the treaty. The United States of America is but no one can doubt her friendliness toward France. Once this committee had concluded its task and Germany then refused to pay, the allies could then march together to deal with her recalcitrancy. And Germany has indicated through her chancellor her readiness to accept such a report. In the absence of some such inquiry a harassment of some kind is inevitable. The world is committed once more to the hands of blind force."

"I recollect a story I read of General Hoffman, one of the German delegates at Brest-Litovsk, who had rather a rough peasant sitting by his side at one of the repasts which characterized the conference and he asked him whether he would take red or white wine. His answer was: 'What is the strongest? It is the red strongest.' It is the question which is being asked in Germany today and which is being asked in France. It is the question of the future of Europe and the future of the world unless a greater spirit of moderation and restraint is introduced into the handling of this perplexing question."

**"FRENCH, COUSIN
OF VANDERBILT,
IS TAXI DRIVER"**

(By The Associated Press.)
NEW YORK, Oct. 17.—Francis Ormond French, first cousin of William H. Vanderbilt, with his first hickammy's tip tingling in his pockets, performed just as efficiently without the powder as with it. In them lay the secret of savings.

Subsequent articles will deal with Mr. Wyer's rules for burning gas, coke, coal and other fuel.

Lands Plane in New York Street

Lieut. Johnson in wrecked plane.
To Lieut. Edwin Johnson, U. S. A., goes the distinction of being first aviator to land an airplane in a New York City street. The daring pilot landed all right, but before the plane stopped it hit bump in pavement and crashed into lamp post.

On the Move

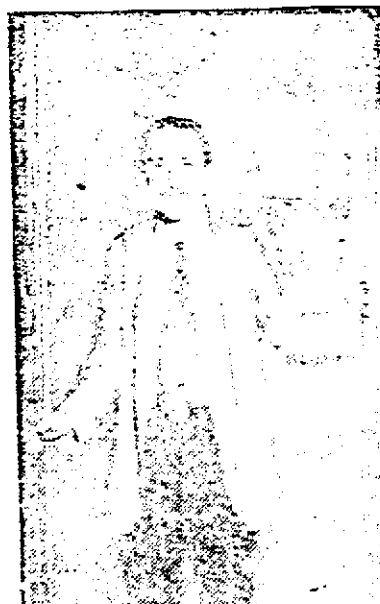

A new record for moving large buildings is being set in transporting of Illinois Central Office building, Chicago, to new foundation.

Bootleggers Did This

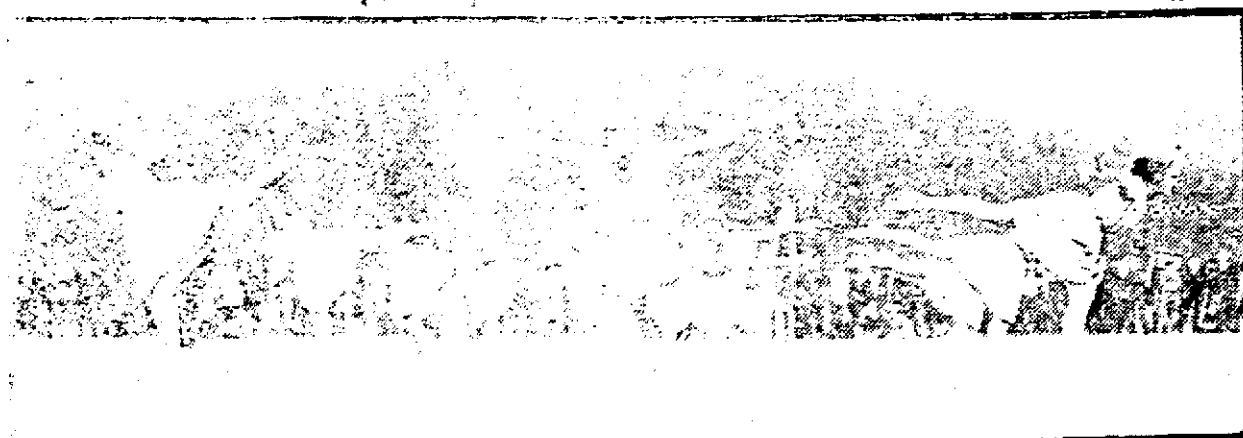

Record

Operating private plane for James H. Campbell, Harry Campbell, New York, has set record of four times around the world.

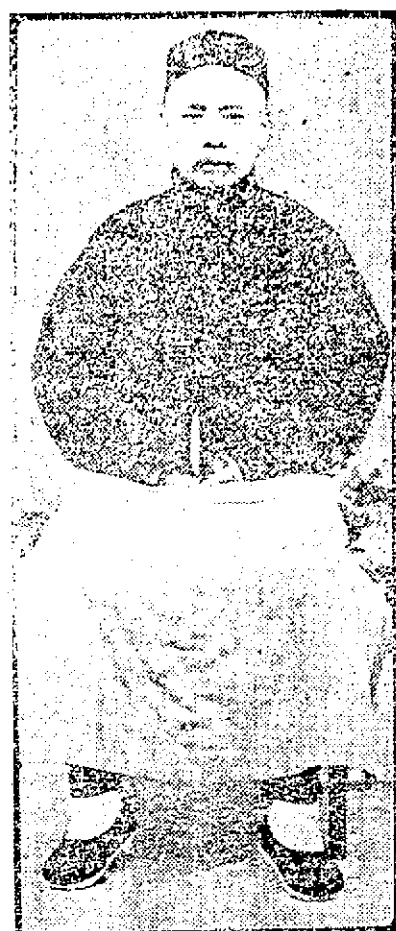

His home demolished by bootleggers. Harry Campbell, son of Harry Campbell, Wash. His wife and two daughters were killed. Wreckage shown above.

Danish Dancing Pupils Entertain President Coolidge

They were entertained by the dancing of pupils of Sir Neil Duh of Denmark. President Coolidge watched dancing at the Washington Monument.

Boss

Called political boss of China, Gen. Tuan Chi Ju, former Premier, shown above in exclusive photo, is watching affairs there closely.

Even a Problem for Lloyd George

For the first time since his arrival in America, Lloyd George indulged in a game of golf, his favorite sport, on the Royal Montreal Course at Dixie, near Montreal, Canada. Here he is shown in interesting position studying the next shot. To putt or not to putt—that is the question.

Open Switch Caused This Wreck

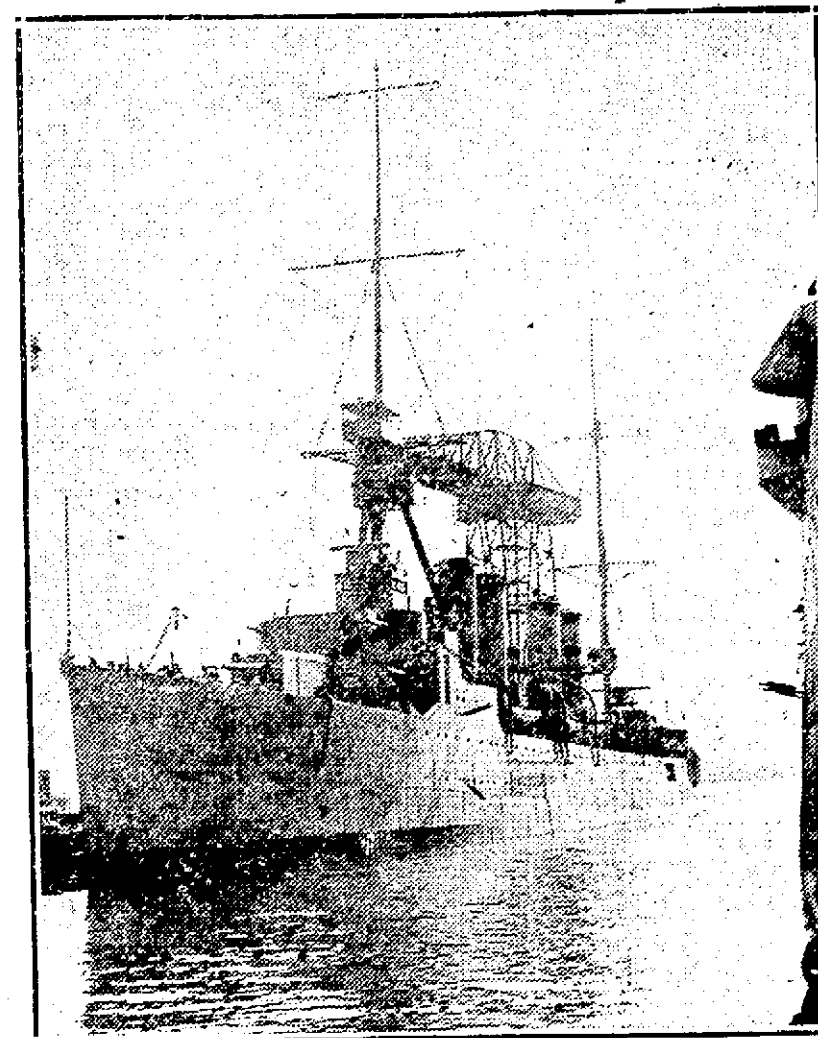

When an extra freight train ran into an open switch at Litchfield, Pa., the train was killed and two others injured. Wreckage shown above.

West's Famous Son

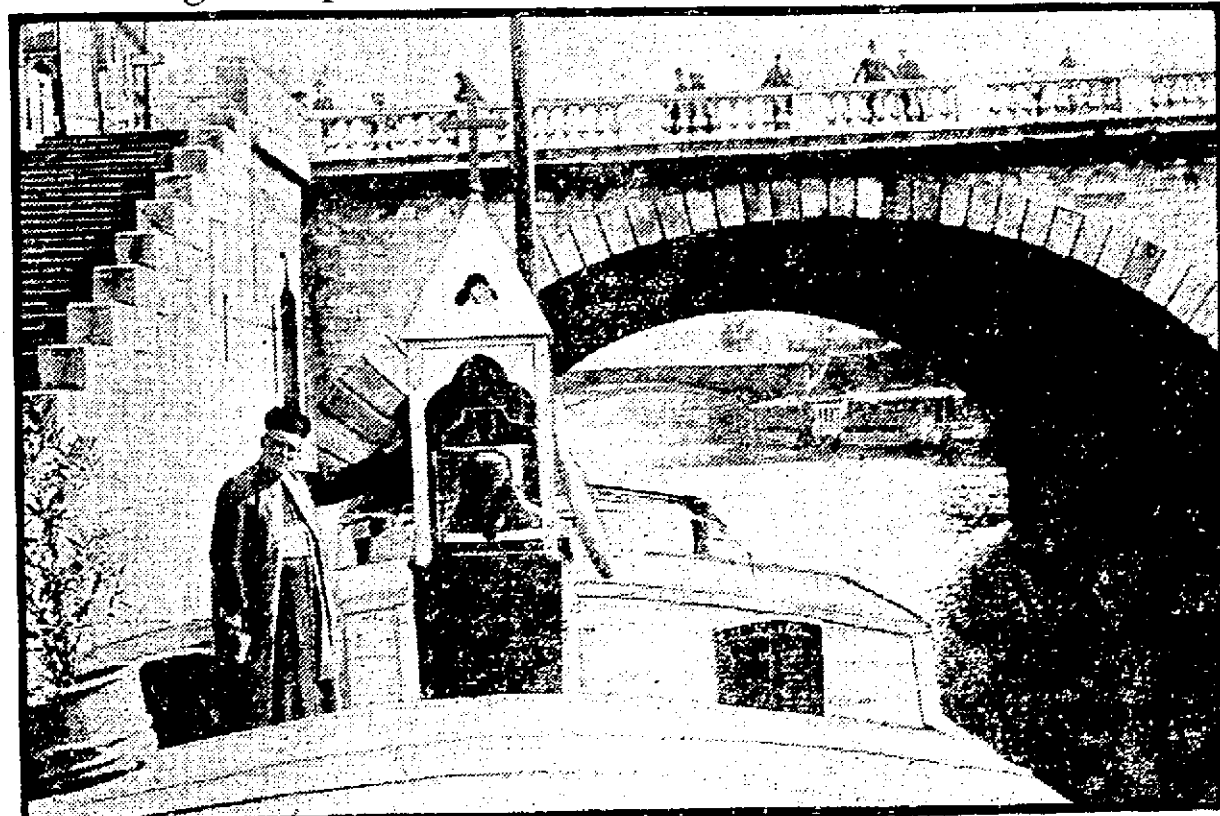

Noted as a onetime gun fighter and friend of Theodore Roosevelt, Col. Zach Mulhall (above) is now chief of Oklahoma's secret police.

U. S. Cruiser Near Completion

(By Pacific & Atlantic)
The U. S. S. Concord (above), sister ship of cruiser Marblehead, is under construction at Philadelphia shipyard and it is expected will be commissioned about Nov. 15. The new ship is 555 feet long and will have trial displacement of about 7,100 tons.

Floating Chapel for Rivermen and Sailors of France

(By Pacific & Atlantic)
Put into use expressly for the rivermen and sailors who come to Paris to attend mass on Sunday, this floating chapel on the the Seine is unique. Photo shows Father Platau on board the craft.

Uphold Wood

(By Pacific & Atlantic)
The United States Government will provide a legal defense for Gen. Leonard Wood against Philippine charges and will back him to the limit, according to recent announcement made in Washington.

Old Love Suit May Be Reopened

(By Pacific & Atlantic)
Sonny Whitney
Evan Burrows Fontaine
The Appellate Division of the Supreme Court, New York, has decided that Evan Burrows Fontaine, cancer, is free to renew her \$1,000,000 breach of promise suit against Cornelius (Sonny) Whitney, son of Harry Payne Whitney, who she claims is father of her son. Young Whitney was recently married to Marie Norton, society belle.

Age and Youth United

Lord Leigh, sixty-eight, had a very youthful smile as he left St. Mark's in London after marriage to youthful Marie Campbell, New York society girl.

Frank Frisch Best Player In Series

NEW YORK, Oct. 18.—In a statement yesterday John A. Heydler, president of the National League, praised the Yankees as the better team in the world's series and paid John J. McGraw the tribute of being "a game loser and a bigger man than ever before in his career." Frank Frisch, the league head declared, came out of the series possibly the greatest all-around player of the game.

Speaking of the tremendous interest shown by the public, Mr. Heydler said that "today, the day after the series, finds baseball at its highest point in the esteem and affection of the nation."

His statement follows: "When the world's series just closed, baseball reached a peak no one had dared to prophesy for the game. Friends of the game had dreamed of a million dollar series, but nobody ever expected to find that the dream had come true. Here was a third series in succession played in New York and yet over 300,000 persons paid over a million to see six games. The series showed that after nearly half a century baseball's hold upon American life is stronger than ever. In all my years of close connection with the game I have never seen so much interest in the Fall classic as this year. And I never saw a finer contest."

"There were those who doubted and who threw cold water and who croaked that the game had slipped back and had been hurt by the many things that are bound to happen to all human enterprises as time goes by. But the wave of intense interest that swept the land in full flood, this Fall has carried the game to its zenith. The interest was not confined to New York. It was everywhere in the series. I believe if the percentage of out-of-town patrons could really be known and published it would be amazing. Every hotel in town reported tremendous business, and all guests receding that had been broken just for the series. The representation from southern states was the largest ever known. Pennsylvania sent thousands."

"The feature of the series was the overwhelming interest of men and women from every walk of life in the struggle for the baseball championship. The reasons were fundamental. The fans were expecting a closely contested series. When the Yankees, beaten twice in succession, turned out the champions and demolished the Red Sox Saturday with their bats, the interest leaped to fever heat at a bound. As many people were turned away Sunday as were seated in the biggest baseball park in the world."

"Both teams fought to the last gasp and gave their supporters their all in the end and the best team won. I believe that John McGraw came out of the series a bigger man than ever before in his career, even though he was beaten. His sportsmanship was splendid. His comment and his attitude Sunday showed a game loser as at his best."

"And, although on the losing team, to think that Frisch, the Giants' second baseman, came out of the series one of the greatest, if not the greatest all-around player of the game, is a tribute that the day after the close of the series, finds baseball at its highest point in the esteem and affection of the nation. It rules supreme as the game of games, without a rival."

Gleason Resigns Job As Manager

(By The Associated Press)
CHICAGO, Oct. 17.—William "Kid" Gleason, the fiery manager of the Chicago White Sox since 1919, resigned today making the fourth managerial position to be filled in the American League before the opening of the 1924 season. The 50-year-old pilot, with a record of 37 years in baseball, resigned, he said, because he was discouraged with his attempts to reconstruct the club, weakened with the exposure of the world's series scandal with Cincinnati in 1919. He set about to rebuild the club when the players who participated in the alleged frame-up were dropped, but in the three seasons that have passed, Gleason's fighting spirit and his determination to win have not wavered. "I've given the best that's in me and the boys did the best they knew how," Gleason said tonight, "but we didn't seem to be able to get anywhere. A change often works wonders so I decided to step out and give somebody else a chance."

There has been no hint from President Comiskey of the White Sox as to the successor.

Gleason, a student of the old school learned baseball while a member of the famous Baltimore Orioles and still carries out the teachings of the old master—fight and never give up.

Hair Stays Combed, Glossy

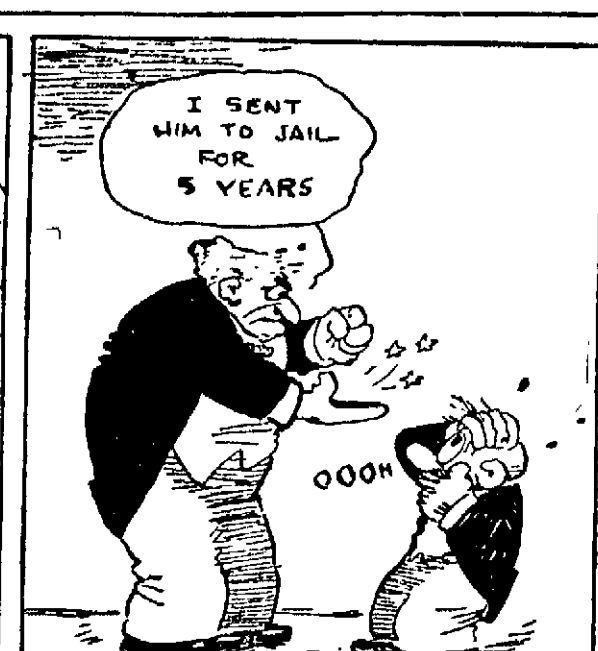

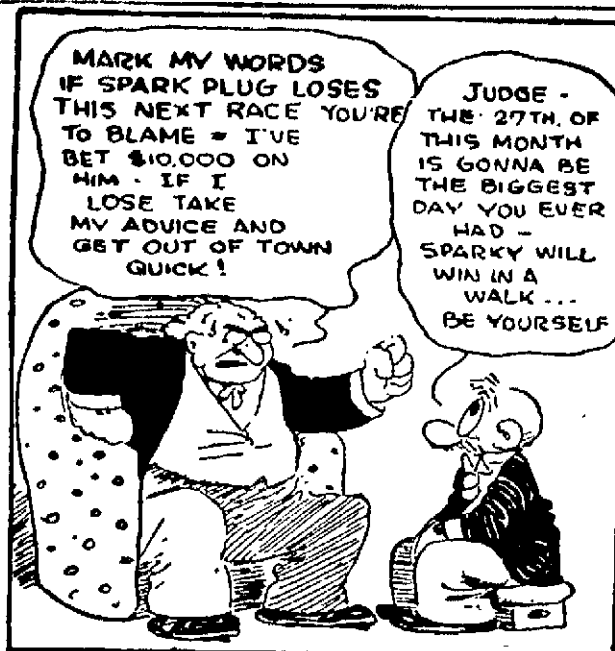

Millions Use It—Few Cents Buys Jar at Drugstore

Even stubborn, unruly or shaggy hair stays combed all day in any style you like. "Hair Groom" is a dignified, combining cream which gives the hair a glossy and well-groomed effect to your hair—that final touch to good dress both in business and on social occasions. "Hair Groom" is greaseless; also helps grow thick, heavy, lustrous hair. Beware of greasy, harmful imitations. adv.

N. Y. Teams Begin To Demobilize

BY MARSHALL HUNT (The Chicago Tribune Service)

NEW YORK, Oct. 17.—The world champion Yankees and champion Giants went back to miff today and demobilization began. Among the details remaining, however, is that of collecting checks for the players' shares. These will be ready for distribution tomorrow or Thursday.

The triumphant American Leaguers are enjoying a well-earned period of recreation. It has been a glorious round of merry-making for the newly crowned champions since they knocked John McGraw's athletes horizontal.

Colonel Jake Ruppert, owner of the team, has assumed the role of the chief entertainer. He assembled the victorious clan at his private oasis uptown this afternoon and gave them the freedom of the joint and everything that was in it.

For the sake of those who wondered just how Babe Ruth felt when he spanned the breezes with the corner crowd and one down in that memorable eighth stanza of the final game, we quote from a speech of the Babe made during the course of today's festivities: "I made that third swing I felt like phoning for a reservation on one of the benches in City Hall Park. Had I taken my shoes off after going back to the bench I believe my heart would have fallen out of my socks."

All training rules and regulations were knocked flatter that the Giant pitching revue. It was just a continuation of the celebration which had its inception in the Yankee dugout when Babe Ruth fired the shot that was heard around the baseball world.

On Thursday the team will formally disband. Some of the champions are going home, others are going to the coast, along with Brother Emilie of the Giants. Wally Pipp, accompanied by his father and his wife, will motor to his home in Grand Rapids, Mich., where he intends to go to his home on the coast, along with Brother Emilie of the Giants.

Babe Ruth will be commander in chief of a barnstorming expedition that will navigate around the east and possibly into the middle west. Babe will come in which he participated. Joe Bush, Wally Schang and maybe Waite Hoyt will go with him. Herb Pennock intends to start for Canada on a hunting trip. Bob Shawkey has organized a hunting party to go to Maine.

Whitney Witt, Joe Dugan, Aaron Ward, Freddie Hoffmann and the reserve players will barnstorm Pennsylvania and other points.

No announcement has been made as to the division of the victors' spoils, but it is certain each of the twenty-six regulars will receive more than \$6,000.

The losers checks will be about \$400 less than they were for winning the 1922 title. A total amount of \$110,000.91 will be divided among Giant players and others voted to cut into the melon. Each regular player, together with Manager McGraw and Coaches Huggins, Jennings and Doolan, a total of 26, will be presented with paper which can be converted into \$4,228.12 in currency. Raids about automobiles sales headquarters will begin soon in many scattered localities.

Wally Pipp had to absent himself from the Yankees celebration today to appear in traffic court. "Are you here to get more fame, Mr. Hoyt?" asked Magistrate Overberger when the pitcher was arraigned for failing to stop his automobile on signal at 44th street and Sixth avenue.

"No, your honor, this kind of fame doesn't do anybody good," said Hoyt. "I am sorry I did not stop at the officers signal, and I will be more careful next time."

The magistrate chuckled, suspended sentence and warned Hoyt in the future he would not be so lenient.

SECOND TEAM OF DANVILLE HIGH SCORES VICTORY

Outplaying Danville in the first half of the football game yesterday at Stonewall Jackson Park the Leesville High second eleven held the Danville second team to a 6 to 0 score. Danville's lone score came in the last half on a combination of forward passes and tackle over tackle plays.

In the first two quarters the visitors outplayed the scrub team, just lacking the punch to score.

Zabawa, right guard and Musselman, left end, were the stars for the locals, while Stultz, right half, captured honors for the visitors.

Leesville Trundle Right End Vernon Tucker Right Tackle Brimm Zabawa Right Guard Emory Reeves Left Guard Jones Jennings Left Tackle Martin Dyer Left Tackle Krantz Musselman Left End Lamar Blair Quarterback Emerson Rodgers Fullback Clarke Withers Right Halfback Stultz Harris Left Halfback Reynolds Time of quarters, 10 minutes; referee, Clark; umpire, Benton; time-keeper, Wilson.

KID GLEASON RESIGNS (By The Associated Press)

BULLETIN CHICAGO, Oct. 17.—William (Kid) Gleason, manager of the Chicago White Sox, today handed his resignation as pilot of the club to owner Charles A. Comiskey and it was accepted. Gleason told Mr. Comiskey that he was discouraged with the showing of the Sox this year and wanted to get out.

CHICAGO, Oct. 17.—Old "Pop" Gleason has gone.

The 1923 showing of the White Sox was a disappointment and the venerable pilot who for three seasons has been trying to build up the team to replace the great machine wrecked by the scandalous world's series of 1919, walked into the office of Charles A. Comiskey today and tendered his resignation as manager of the club.

Gleason made known his plans today following the victory of the Sox over the Cubs in the city series. When the club house celebration had quieted down "Pop" called his boys together, told them that he would not be with them next year and wished them good luck. He offered no explanation, simply saying he thought it best to leave.

Behind the voluntary passing of the "Kid" as he is known far and wide, is the story of a tough struggle. The shattering of his pennant winning team by the exposure of the September 1920 was a blow from which he never recovered. He could have quit then and gone elsewhere, but he preferred to stick and attempt to reconstruct Comiskey's ball club. Last Spring he flung the hat and accomplished something, but the happenings wrecked his hopes and he is now ready to turn the task over to a young man.

When he finished his brief "swan song" today and the athletes had scattered to don their uniforms for the last time this year, "Kid" pointed to the name of Eddie Collins on a locker and said: "That fellow's misfortune was what broke us up. The team was never right after that."

What Gleason referred to was the injury suffered by the greatest second baseman in a game at St. Louis on July 2. That was the last series of a road trip that included every city in the circuit. The Sox came home from that hunt with a record of 18 wins and 3 losses and on their arrival were only half a game out of second place.

Sporting World Now Turns Attention To Big Horse Race Sat.

New Yorkers Much Excited on Eve of Race Between Zev, U. S. Horse, and Papyrus, British Horse.

(By The Associated Press)

NEW YORK, Oct. 18.—On the surface as much excited as before the Dempsey-Firpo bout, or the last game of the recent world's series, New Yorkers today were holding their sporting breath until the barrier springs two days hence at Belmont Park when Zev, the American horse and Papyrus, the English derby winner, plunge off in the first big international match horse race in history.

His last long workout over yesterday, Zev was simply to be kept in the top form that Sam Hildreth, trainer for Harry Sinclair, believes the American thoroughbred to be enjoying, but Papyrus was to take a time trial today with Steve Donoghue, the English jockey who came especially to ride him. There was no certainty about Papyrus' program as Basil Jarvis, his trainer, had changed his plans so often that the experts do not pretend to anticipate him.

Hildreth was much annoyed by divergent reports about Zev's workout yesterday when the horse was "clocked" a mile and a half in 2:05 2-5, admittedly slow time for his rating. The trainer said the horse worked at a mile, that L. Farrow, who had the mount, carried out his instructions to pull him up at the mile and the next two quarters were required to get him in.

Zev made the mile and a quarter in 2:00 flat and the mile in 1:39 2-5, good time, though for his head all the way and was breathing easy when pulled up. Despite this the odds shortened, some wages being laid against him and others at reduced odds.

Donoghue was awaiting a reply from J. P. Noel, the English owner, to whom he is contracted, for permission to accept the invitation of Trainer Tom Walsh to take a mount at the Empire City track Friday afternoon.

The jockey felt that the experience of breaking away from the American type barrier and of riding against American competitors would be invaluable to him for Saturday's race and desired to accept.

The English rider was a guest at Empire City yesterday and saw a full program of races introduced by Earl Sande, who will sit in Zev's saddle Saturday, taken to the post to observe closely how the barrier worked, and then to the Steward's stand to watch a finish. Four private detectives he had with him, keeping the crowd, which constantly cheered from rushing the little fellow.

"KID" GLEASON BIDS HIS MEN GOODBYE AS MGR

(By Chicago Tribune Service)
CHICAGO, Oct. 17.—Old "Pop" Gleason has gone.

The 1923 showing of the White Sox was a disappointment and the venerable pilot who for three seasons has been trying to build up the team to replace the great machine wrecked by the scandalous world's series of 1919, walked into the office of Charles A. Comiskey today and tendered his resignation as manager of the club.

Gleason made known his plans today following the victory of the Sox over the Cubs in the city series. When the club house celebration had quieted down "Pop" called his boys together, told them that he would not be with them next year and wished them good luck. He offered no explanation, simply saying he thought it best to leave.

Behind the voluntary passing of the "Kid" as he is known far and wide, is the story of a tough struggle. The shattering of his pennant winning team by the exposure of the September 1920 was a blow from which he never recovered. He could have quit then and gone elsewhere, but he preferred to stick and attempt to reconstruct Comiskey's ball club. Last Spring he flung the hat and accomplished something, but the happenings wrecked his hopes and he is now ready to turn the task over to a young man.

When he finished his brief "swan song" today and the athletes had scattered to don their uniforms for the last time this year, "Kid" pointed to the name of Eddie Collins on a locker and said: "That fellow's misfortune was what broke us up. The team was never right after that."

What Gleason referred to was the injury suffered by the greatest second baseman in a game at St. Louis on July 2. That was the last series of a road trip that included every city in the circuit. The Sox came home from that hunt with a record of 18 wins and 3 losses and on their arrival were only half a game out of second place.

Collins' injury came in the shape of a twisted knee. He was out for over two weeks and in the meantime there was none to fill his shoes but a new collection. Game after game slipped away and on top of the Collins' ailment came the enforced absence of McClellan, then Kamm. For many weeks the regular infield wasn't able to perform and the team naturally suffered. It wasn't long before the first division leech went slithering and the Sox slid down and down to wind up the race in seventh place.

NET PROFITS ANNOUNCED (By The Associated Press)

NEW YORK, Oct. 17.—Net profits of the Republic Iron and Steel Company for the quarter ending September 30, 1923, totaled \$1,984,455, it was announced today at the quarterly meeting of directors.

The question of paying off the remaining three per cent. in dividend in arrears in the preferred was not decided but will be acted upon at the November meeting. The company paid an extra dividend of two per cent. on this stock October 1.

GOBBLERS ARE READY FOR TILT WITH MARYLAND

BLACKSBURG, Va., Oct. 17.—

"We are going to Washington next Saturday to trim that Maryland outfit. You fellows have demonstrated clearly that you can play ball from your performance against that heavy Third Corps team in Baltimore and I am expecting every man to go in against Maryland with the determination that we are to have this game." Thus spoke Coach Ben Cubbage to his Gobblers here this afternoon. The Techs are in fine shape after their encounter with the giants of the Third Corps. There are a few slight bruises but these will be taken care of after Doc Tyler gets to work on the squad. This afternoon Cubbage lined up his men against the Freshmen and there were four ten minute quarters. The Gobblers scored three touchdowns and held the Young Gobblers without a semblance of a first down. Cubbage will work his men at high practice for the balance of the week. It has been found that the Gobblers can stand the pressure and the coaches will give them all the scrimmage work possible. Don Rutherford's kicking was the feature of the afternoon play. The doughty little halfback kicked four goals from the field all of which were from different angles. Rutherford will meet his match in Grove of Maryland as it was this lad who kicked last in the Virginia game. Pennsylvania last week. The Techs are expecting the hardest kind of battle when they go up against the Curly Byrd outfit and there will be no let up in the grid until they board their train for the Norfolk game Friday morning. Cubbage is very much pleased with the work of Liebrecht at left tackle. The Norfolk boys stood the gaff well against the Third Corps and it looks as though he has shown in the "Coke" game. Pennsylvania alternated at quarter with Artie Roberts showed such form last week against Third Corps that Cubbage may shift the Orange and Maroon leader back to his old position at halfback.

TRINITY WARMING UP FOR GAME AT ROCKY MT. SAT.

DURHAM, N. C., Oct. 17.—With only one serious casualty as a result of the Trinity-Carolina game, Williams at right tackle who sustained a fractured collar bone, the Blue Devil squad is now warming up for the game with William and Mary in Rocky Mount on Saturday of this week. The rest of the squad will be in the finest form of the season, if all signs are to be believed.

Trinity has placed William and Mary twice during the last three years. In 1921 the Virginians triumphed by a 14-0 score. The next year, 1922, they beat the Methodists by the score of 13 to 6. Trinity is very much stronger than it was last year, and shown in the "Coke" game, and the chances are that the Blue Devils are going to bag the struggle at Rocky Mount this time.

It is hard, however, to estimate the strength of the Virginians at this time. Trinity won from Guilford by the running score of 68 to 0. William and Mary beat the Quakers by the score of 74 to 0. From this comparison it appears that the Virginians have a 6-point jump in the locals. It must be recalled, however, that Coach Steiner sent practically every man on the squad in the game with Guilford, 42 substitutions having been made. No one here knows what tactics William and Mary used last Saturday against the Guilford eleven. Everybody here is sure that the first or even the second half of the game have made several more touchdowns on the Quakers.

Be all that as it may, the Rocky Mount fray on Saturday is going to be a hard fought affair, with perhaps a small margin of points difference between the victors and the losers. A tremendous crowd is being prepared for, because the game will be the only football contest of any significance in Eastern North Carolina this season. The Rocky Mount Alumni have sent out invitations to over 300 Alumni in that section of the State to a banquet to be held Saturday night in honor of the Blue Devils.

CAROLINA WILL BE FAVORITES

(By The Associated Press)
RALEIGH, N. C., Oct. 17.—With the odds slightly favoring Carolina to win the fifth annual state game between North Carolina State and the University of North Carolina will be played here tomorrow in Riddick field, the home gridiron of State. The score in games between the two institutions stands even, each team having won two of the four annual contests played.

NET PROFITS ANNOUNCED (By The Associated Press)

NEW YORK, Oct. 17.—Net profits of the Republic Iron and Steel Company for the quarter ending September 30, 1923, totaled \$1,984,455, it was announced today at the quarterly meeting of directors.

The question of paying off the remaining three per cent. in dividend in arrears in the preferred was not decided but will be acted upon at the November meeting. The company paid an extra dividend of two per cent. on this stock October 1.

Everett Scott Plans To Retire

(By The Associated Press)

NEW YORK, Oct. 17.—Not only will the New York Giants, fallen world's champions, go through a rebuilding process before they are ready to scale title heights again, but the Yankees, their successors to baseball's crown also may bolster a few weak links in their victorious machine before the 1924 season gets underway.

It developed today that Everett Scott, veteran shortstop of the Yankees who holds the all-time record for consecutive games played, is considering voluntary retirement, although Miller Huggins, manager of the new champions, has no desire himself to part with the game's greatest "iron man."

Scott, however, has an attractive business enterprise in view, which if accepted would mean his passing after having piled up the remarkable record of participating in 1,138 consecutive games, a record he started in 1916 with the Boston Red Sox and which nearly doubles the best previous major league record.

"This may be my last world's series," Scott admitted just before the games with the Giants. "I want to be at my best so that if I don't come back in the Spring I can remember with pride my last season. I've been around a long time and I'm not getting any faster."

Scott had his wish so far as the series was concerned for the "Deacon," after a rather disappointing season, came back to play the greatest championship ball of his career, battling over 300 and missing but one chance in the field.

Mr. Scott may find the call of the game too strong to resist when Spring comes around but in the event he drops out, his shoes may be filled by Joe Boley, "100,000 Beauty" of the Baltimore Orioles, who has been eagerly sought by a number of major league clubs for several seasons. The purchase of Boley has never been officially announced by the Yankees or Jack Dunn, manager of the Baltimore, International League champions, but it is understood the world's champions have first claim on him.

If Boley is not available, however, Ernie Johnson and Mike McNally, Yankee utility men may battle for the shortstop berth.

Beads of self color or in very bright shades are used to adorn the smartest velvet gowns this season.

The Nut Cracker

THE NUT CRACKER—SPORT PA

For sale: One master mind. Slightly used, but in fair running order. Apply J. J. McGraw, Polo Grounds.

We were surprised to learn the recent disturbance was a contest between brains and heavy. We were surprised to learn that brains had anything to do with baseball.

Mr. Ruth appears to have demonstrated that he can be just as much of a buster as a bust.

Col. Hickory Nutt says: "I suppose all these college boys with educated toes grow up to be chiropractors."

We hear that Firpo will insist on ground rules the next time he meets Dempsey. Two bases on all upstarts into the crowd.

Pitcher named Meeker joins the Athletics. The meek shall inherit the earth. The meeker are simply out of luck.

Donie Bush has been canned as manager of the Washington team and will not have to live there any more.

GEO. CHRISTIAN MAY PURCHASE THE INDIANS

By HUGH FULLERTON

NEW YORK, Oct. 17.—George Christian, former secretary to President Harding, probably will be a baseball magnate before next Spring.

Mr. Christian is negotiating for the purchase of the Cleveland baseball team from Mrs. James Dunn, widow of the popular owner of the Indians, and it is inside dope that the agreement to sell and buy has been reached.

It is understood that Ed. McLain, of Washington, is the financial backer of Mr. Christian in the enterprise and the Barney Barnard, former secretary, who has been the real head of the club since the death of Mr. Dunn, is interested with Mr. Christian in the venture.

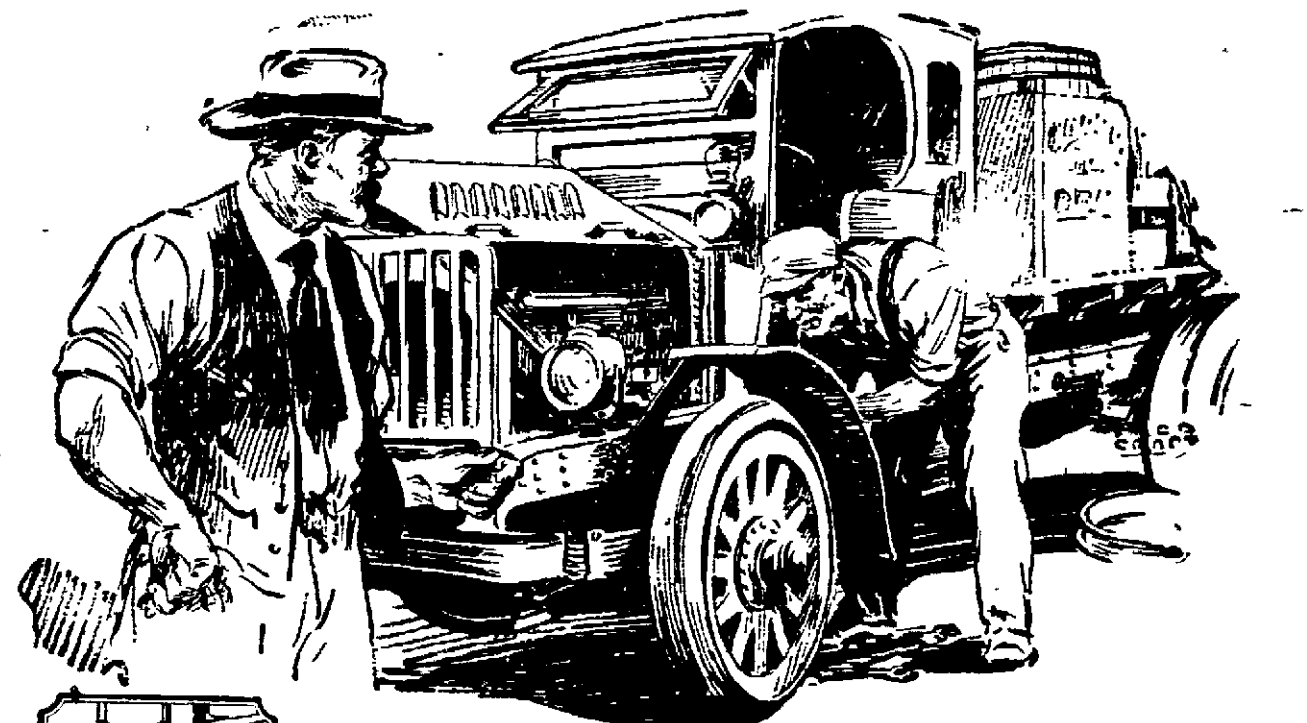

Mr. Christian, who has been here attending the world's series games, has been in conference with President Johnson and with American League owners. His home is at Marion, Ohio, and he has been interested in the affairs of the Cleveland club for years.

Virginia Squad Ready For Game

(By The Associated Press)

CHARLOTTESVILLE, Va., Oct. 17.—The University of Virginia "football" squad, driven by Coach Neale in preparation for the clash with the Flying Squadron of the Virginia Military Institute here Saturday, worked in secret practice behind closed gates today while builders were erecting additional stands for the record crowd expected to attend the contest. All the Virginia grid warriors are reported in good condition and nothing has been said about any changes from the line-up used last Saturday against St. Johns of Annapolis.

Reports received here from Lexington are to the effect that the Cadets are strenuously "prepping" in the battle and that the squad is in fine form, having come out of last week's Roanoke game without casualties. The coaches representatives say, are drilling their charges in the fine points of the game, having devoted the earlier training period to basic gridiron principles.

"How's that float in the carburetor?"

ONE of the drivers reported a falling off in gasoline mileage. Come to find out, as the experienced Fleet Boss promptly suggested, the float in the carburetor wasn't set properly. When the level was changed 1/16 of an inch, without making any other adjustments, the driver got 2 more miles per gallon out of his gasoline.

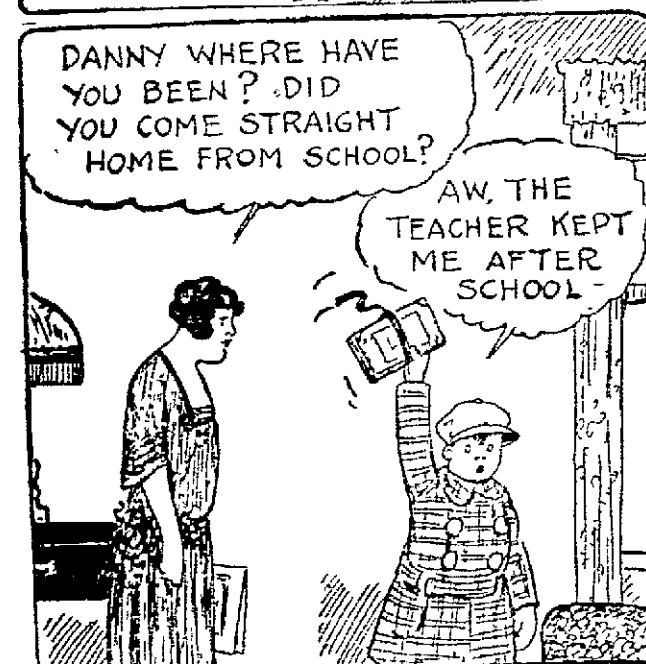

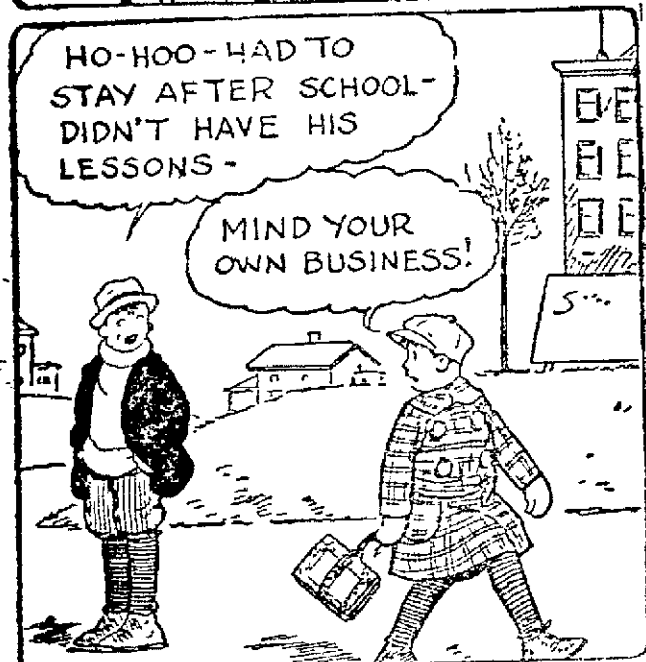

The superintendents who have charge of making Polarine have spent the better part of their lives in the refinery. When you use Polarine, your motor is the benefit of their long experience, as well as of a splendid staff of chemists and practical lubricating engineers. Experience has made Polarine the best oil you can buy today. You can depend on it 100%—and it's moderately priced, too, considering its outstanding quality.

CAUSE OF COLDS IS BEING PROBED

(By The Associated Press.) CHICAGO, Oct. 17.—Dr. John F. Norton and Dr. Edward L. Jordan, of the department of Hygiene and Bacteriology at the University of Chicago, have begun an investigation of the causes of colds. It became known today and have sent out about 2,000 questionnaires to students concerning their chronic conditions, weight of underwear and other points bearing upon colds. No single germ ever has been found to be the cause of colds, Dr. Norton said.

MASONIC NOTICE: BRETHREN: Attend a Called Communication of Merced Lodge, No. 210 A. F. & A. M. to be held Thursday night in Masonic Temple at 7:50 p. m. Work in the Entered Apprentice Degree. By order of W. M. JACOB SILVERMAN, Sec'y. 10-17 B2f

"HOW LONG WILL YOU BE HERE DOCTOR?"

"To here," asked the Doctor. "Yes." "Why, I will be here 'till I have examined and treated the many hundreds of sufferers in Danville and surrounding country. I did not come in yesterday to pull off a few remedies on the unsuspecting and leave tomorrow. I am here to stay and prove to suffering humanity that I am the friend. The thousands of testimonials now in my possession speak for me. The many bottles of T. J. and other remedies now on exhibition in my show window prove my worth. I don't have to say a word, my many recovered victims of the fatal malaria which I have cured I tell the tale for me. Yes, I will stay here a while. I should like to stay here, while there is so much suffering, I should and will do my best to ease the suffering and good will of my patients I prize more than I do money."

COAST ARTILLERY

OUT ON A HIKE

NEWPORT NEWS, Va., Oct. 17.—

For purposes of practical training for the men, education for the citizens of the towns and cities through which they pass as to what is being done at the coast artillery post and also for purposes of recreation the entire personnel of the 51st artillery, accompanied by the band of the 52nd artillery left Fort Eustis today on a hike to Richmond.

Before their return to the post they will drop down through Petersburg and later return from that point by another route. The party expected to spend tonight in Williamsburg and tomorrow night in Tazewell, putting up their tents at the tourist camp in Richmond while in the capital, according to announcement made tonight by Colonel Harold F. Cloke, commanding officer.

WIFE MURDERER GETS

A STAY OF SENTENCE

INDIANAPOLIS, Oct. 17.—Harry Diamond, of Gary, Indiana, convicted of murdering his wife, and sentenced to death, was today granted an extension by the supreme court until April 4 in order to perfect an appeal. Diamond was sentenced to be electrocuted October 12 but was granted a sixty day reprieve by Governor McCray.

COTTON MILLS BANKRUPT

GREENSBORO, N. C., Oct. 17.—The Mecklenburg Mills Company, Charlotte, was today declared bankrupt by Federal Judge James E. Boyd here upon petition of C. F. Riser, Olar, S. C., and the Piedmont Sundries Company and the Charlotte Supply Company whose claims against the company for cotton and textile supplies total \$112,952.92. The matter was referred to Clifford C. Frazier, referee in bankruptcy.

YOUR HEALTH

Dr. Clifford C. Robinson

HEALTH IN GOLF

No out-of-doors exercise, such as golf, tennis, cricket, rowing or fishing, has ever killed anyone except through accident. I have been a golf player for the past 15 years and as a physician can testify to its great health-building qualities.

What a real surprise you would get if someone should say "Don't go out and play golf. It may kill you." Yet we are continually hearing this advice, in one way and another, from those who should know better.

The death of A. R. Smith, secretary of Dover College, England, while playing golf, has been made the subject of much newspaper comment on both sides of the ocean. It is not right to exaggerate such events. It scares a lot of old fellows out of their only fun in life. Golf is a game, and at all, but something else in body condition, that golf helps to overcome every day.

Mr. Smith was 65 years of age. The broadcaster at once gave out this query: "At what age should golfers quit the game?" John D. is almost 90 and still at it. It might just as well be asked, at what age should we begin.

No definite information or statistics are available on the age of golf players in the hundreds of clubs in this country. The only statistics we have, is that thousands are greatly benefited every day by this open-air exercise. To say that arteriosclerosis (hardening of the arteries) has pressed so far, at 60, that golf club swinging is dangerous—is pure bunk.

The fact is, there is much coordination between mind and muscles in this wonderful game. The leg muscles are strengthened, also those of the abdomen, back and shoulders. The ankles, which often stiffen up a bit at 50—are kept free and supple by stretching and turning. While the strokes, hazards and distances keep the mind interested.

A new club has recently been formed in Chicago, limiting its membership to those over 50. Over 100 signed up the first week.

NEW YORK COTTON

(By The Associated Press.)
NEW YORK, Oct. 18.—The cotton market was nervous and uneasy during today's early trading. Liverpool was better than due and very unsettled weather conditions were reported in the south, but these features seemed to be offset by a disposition to take profits on continued complaints from the goods trade and a less favorable view of European political conditions. The market opened irregular at a decline of one point to an advance of 20 points, but after selling at 23.15 at the start, December broke to 23.85 under realizing and southern selling.
Cotton opened steady.
October.....23.80
December.....23.05
January.....23.50
March.....23.55

DRYS AGAIN HELD IN LEAD IN FIGHT WITH WET FORCES

WASHINGTON, Oct. 18.—The drys have once more the thing that has always characterized their political activities—jumped out into the lead of the race and set the pace. That is the meaning of the Citizenship Conference that closed its sessions here last night.

They were in serious trouble. Enforcement of the prohibition laws admittedly was failing in the East, and, perhaps, in other sections. And elections in the East, and to some extent elsewhere, were showing a tremendous popular upheaval against the laws in the big centers, and in many of the smaller industrial districts.

Volume of Protest Growing.
The two circumstances were interlocking upon each other. Failure in enforcement strengthened those who demanded changes in the laws and voted accordingly. The volume of protest from those demanding changes in the law increased the difficulty of enforcement of the laws. The total effect was the most serious menace to prohibition since the adoption of the Eighteenth Amendment.

Few politicians expected the wets to make any concrete legislative gains in the coming session of Congress. But it was believed that they would have more strength than in years and more fighting spirit, and that they would take the offensive in a very striking way. There plainly was the possibility that such development would add to the two outstanding difficulties of the drys at the moment—weakness in enforcement and revolt in Eastern centers. And out of that might come disaster in the next presidential election, in the form of nomination and election of a "moderate wet."

Avoid Backs-To-Wall Fighting.

In danger of having their backs pressed to the wall and of being compelled to fight a wholly defensive action, what did the drys do? They

decided to hit first and to organize first. And their first blow was delivered in the Citizenship Conference, one of the most skillfully conceived, skillfully executed and generally effective demonstrations in many years. It is difficult to see wherein that demonstration failed in any of its important objectives.

The two main objectives certainly seem to have been attained. They were:

First.—To arouse the prohibitionists throughout the country, and also to arouse the class that may be indifferent to prohibition but is not indifferent to the contention that there is grave danger in tolerating widespread indifference to the laws. So far as that can be accomplished at one stroke, there is every reason to believe that the drys were successful.

Secure Wide Publicity.
They obtained an almost incredible amount of publicity. Big newspapers and little ones featured the dry speeches and arguments for three days. And the drys used the tremendous opportunity of that publicity not only to make the usual dry arguments but to get before the people in emphatic form the argument that whether prohibition is wise or unwise, it is in the organic law, and while it is there it should be and must be respected. They maintained the latter argument through men and groups far removed from the dry class.

The speech of Louis Marshall is an example of the skill with which that part of the undertaking was carried out. Mr. Marshall was a wet. He is a Jew and a leader of the Jews. He was from New York. To have a wet who comes of a people generally strongly wet, and who comes from a city that is counted "wild wet," stand up in a Congressional church and stentorianly demand obedience to the laws is no inconsequential achievement.

Deny Ex-Kaiser And Wife Are Estranger Now

(By The Associated Press.)
LONDON, Oct. 18.—Rumors of an estrangement between the former Kaiser and his wife, which recur from time to time, are refuted by the German correspondent of the Daily Mail. Citing indications that the attachment between the couple is unbroken, the correspondent quotes Hermine as saying recently to a friend: "My husband is so lovable, dear, and good, that I never spirit demand the supernatural from me and I have to muster all my intelligence to follow the rapidity of his thoughts."

Carolina-State Clash Center of Attraction In N. C.

(By The Associated Press.)
RALEIGH, N. C., Oct. 18.—Riddick Field at North Carolina State College as the battle ground for the 1923 Carolina-State football clash will be the center of attraction of the Capital City and the State. North Carolina's great state fair is considered a competitive drawing card for crowds which are expected to pour into the state college athletic field 15,000 strong.

SEES WONDERS IN RADIO SOON

By JACK MYERS
(By Chicago Tribune Service.)
SYDNEY, Oct. 17.—Managing Director Flisk of the Amalgamated Wireless Company, an endorsed Lord Burghley's prediction that the parliament of the British empire will listen by means of wireless telephony to the speeches of the premier of Great Britain. The speech of the president of the British Empire will be broadcast with equal facility to Sydney and Melbourne as to Chicago. Wireless telegraphic communication between Australia, Great Britain, and America is now practicable. Within four or five years direct wireless telephonic communication will be equally possible, and experimentally, even carried. Mr. Flisk anticipates an early success in experiments on preserving the secrecy of conversation, which will prove a boon to commerce and governments.

DISSOLUTION OF COMPANY.

(By The Associated Press.)
TORONTO, Oct. 17.—Amalgamated and the dissolution of the Virginia State Insurance Company, which sold out its business on September 27, 1923, was taken yesterday afternoon by stockholders when they ordered a formal resolution applying to the State Corporation Commission for the

GASOLINE PRICE MOVES

(By The Associated Press.)
CHICAGO, Oct. 17.—Recommendation that gasoline prices be applied to the gasoline market was made today by attorney generals of 24 states who for three days have been discussing the oil situation. The resolution, the text of which has not yet been made public, was one of a radical nature. Edward Hilson, attorney general of Minnesota, explained.

ACCEPTS INVITATION

(By The Associated Press.)
NEW BERN, N. C., Oct. 17.—Congressman Charles K. Abernethy has announced his acceptance of an invitation extended by the Charleston, S. C., Chamber of Commerce, to be one of the principal speakers at the Navy Day celebration to be held in the "City by the Sea" next Saturday.

Farmer To Have His Inning Before The Conference of Governors Today

(By The Associated Press.)
WEST BADEN, Ind., Oct. 18.—The farmer is to have his inning today before the conference of governors from all sections of the country gathered here to discuss state and national questions. Discussion of agricultural problems occupies the greater part of the day's program.

Wheat, the wheat farmers and the solution of the depressing wheat price situation was the subject of a discussion by Governor Nestos of North Dakota, speaking on "wheat in the nation's business" preceding a general discussion of agricultural and farm problems in general.

MORNING STOCK LETTER.

Thomson & McKinnon.
NEW YORK, Oct. 18.—Can you see anything this morning that would cause a bear to become a bull, or a bull to become a bear? I don't think there is and there hasn't been for several weeks. It is just a question of your mental attitude. When there is a red light it is of course advisable for sensible men to be cautious. That red light was displayed last March. The strange thing is that those who were loudest in proclaiming that it was not a red light and kept on talking that way, are today the bears, such a position at this time of necessity be based on the expectation of some calamity. But you know very well that these national calamities, these serious business depressions, do not follow each other within two and a half years. I think we are merely in

were to be outlined by Governor John M. Parker of Louisiana and to be followed by a round table discussion with all governors present taking part.
Governor Sweet of Colorado will speak on "executive clemency" and lead a discussion on employment of inmates of penal institutions.
Nathan V. McChesney, president of the national conference of commissioners on uniform state laws will discuss uniformity of legislation between states.
The executive committee of the conference will meet this afternoon to select the officers for the coming year.

DAILY PUZZLE

The drawing above represents a "word octagon." It is divided into eight sections, each containing a word. Start at section 1 and pick out a letter. Then pass over to section 2, pick out a letter and add it to the letter from section 1. Take the letter from section 3, and continue thus three times around the octagon, using the period in section 8 last of all. If you pick out the correct letter each time, a complete phrase of four words will be formed, with the period at the end.

Yesterday's answer:

The word "DENY" has four letters and ends with "eny." It is difficult for one to recall this word for every one who thinks of a word that will rhyme with "MANY," whereas the pronunciation of "deny" is entirely different, and decidedly unique.
